# DULUTH HERALD

FIFTEENTH YEAR.

THURSDAY, JULY 1, 1917.

FIVE O'CLOCK EDITION.

TWO CENTS.

## Saving in Piano Prices

There is no reason why prices on first-class pianos should remain high when all other articles are lower and when all salaries and wages are lower. Our advent in the piano trade of Duluth has made it possible to get the highest grade and the finest pianos in the world at low and reasonable prices. We are the only dealers in Duluth buying our instruments outright for spot cash and that means a great saving in price.

**Terms.**  
We sell on very liberal terms, making it easy to own a fine instrument.

We handle nothing but strictly reliable makes and sell them at from \$185 to \$500, saving customers from \$50 to \$100 on each purchase.

## FRENCH & BASSITT,

Corner First Street and Third Avenue West.

### KNABE, THE QUEEN.

The Colonel style is ARTISTIC, BEAUTIFUL, CHASTE.

PARK, GOOD RACES, LOCAL  
HORSES, LOTS OF FUN.  
COME ALL! TICKETS 25c!

### DURRANT'S FINAL APPEAL.

Papers Reach the Supreme Court at Washington.

Washington, July 1.—The papers in the appeal of W. H. Durrant, under sentence of death in San Francisco for the murder of Blanche Lamont, were received by the clerk of the United States supreme court today. The appeal is from the decision of the circuit court of the United States of the Ninth circuit in refusing to grant Durrant's motion for a writ of habeas corpus.

In his petition Durrant alleges the irregularity and illegality of the proceedings against him in the California state courts, in that the trial was conducted upon information not in accordance with the equal protection of the laws, and not by due process of law, and that testimony was introduced and conviction secured without due process of law and without a trial by an impartial jury and without process of law.

Particularizing, he says that prosecution by information instead of indictment by grand jury is in conflict with the fifth and fourteenth amendments to the constitution, as is section 80 of the penal code of the state, under which his prosecution was conducted. Hence he alleges that the courts in which his examination and trial were conducted were without jurisdiction. He contends that the refusal of the court to grant a change of venue amounted to a denial of due process of law, and that the refusal of the court to punish for contempt the publishers of San Francisco newspapers in publishing articles detrimental to his (Durrant's) having a fair trial, thereby interfering with the procedure of the court and prejudicing the jury against him.

As the supreme court will not sit again until Oct. 12, the appeal cannot be argued before that time.

### MINERS MAY STRIKE.

Pittsburgh, Pa., July 1.—The exact situation as to the miners' strike may be thus summed up: During the last three weeks there has been so much talk of the United Mine Workers' executive board of the United Mine Workers' union in Columbus, last week, it was decided to order up in Pennsylvania, Ohio, Illinois, Indiana and West Virginia, but the order to suspend work has not yet been sent out. As the Pittsburgh district is the pivotal point around which the coal trade revolves, a convention has been called for Saturday. At this convention it is thought, the miners will almost unanimously vote for a general suspension of work in the meantime the word

will be sent out to the miners of Illinois, Ohio, Indiana and West Virginia, and they will follow the lead of the men of this district. It is said they may strike at most any time.

### LAW IS INVALID.

Ohio's Famous Smith Lynch Law Knocked Out.

Cleveland, July 1.—Judge Dissert, of the common pleas court, today decided the Smith Lynch law invalid. The law, now properly speaking is a riot law, permitting persons injured in riots to recover from the county. It went before the court in the form of a damage suit brought by J. W. Caldwell against the county to recover damages for injury received at the Brown Hotel and Conveying Machine company's strike.

The court did not hold the law making counties and municipalities liable for property destroyed by riots unconstitutional. He held the legislature had the right to enact laws to protect both persons and property. He held, however, that the conviction and punishment of the offenders should be a bar to the recovery of any damages. He thought it more logical to invest the commissioners with authority to prevent riots before passing a law making the county liable for injuries.

However, the serious defect lies in the wording of the law fixing damages absolutely at \$200 for slight injuries, and \$1000 for serious injuries inflicted by a mob. The court held that two or three persons may constitute a mob, and that the law opened up the way to numerous damage suits against the county. Moreover, it placed the damages beyond the jurisdiction of a jury, and the amount of damages would likely be altogether out of proportion to the injuries inflicted. The law was therefore deemed invalid and unconstitutional.

### RECOMMENDS DISMISSAL.

Washington, July 1.—One of the first acts of Secretary Long upon his return to Washington was to recommend the approval by the president of the sentence of dismissal imposed by court-martial in the case of Commander Donnell Mullin, accused of drunkenness on duty while in command of the Pensacola navy yard.

### AMERICAN RAILS CHEAPEST.

New York, July 1.—The Evening Post's London correspondent cables today as follows: I understand that large orders for steel rails have been placed in the United States by two of the Indian railways at prices said to be \$1 per ton below the figure at which the contract could be filled in this country.

## TELLER ON GUARD

Will Not Permit Any Last Minute Anti-Trust Tariff Amendments.

### ANTI-SCALPER BILL

And Pooling Bill Will Probably Go Over Until Next Session.

Washington, July 1.—The near approach of the completion of the tariff bill was referred to in the opening prayer to the senate today by the assistant chaplain, Rev. Hugh Johnson, who said: "We recognize Thy hand in this work of commercial legislation now near completion in so short a period of congressional history. We thank Thee for the courage, the disinterestedness and the generosity exhibited by senators and representatives, and that party interest and feelings and local interests have been subordinated to the expressed will of the majority in this legislation."

The interstate commerce committee of the senate considered the anti-scalping bill, but owing to the absence of several members of the committee, no vote was reached. It is probable that owing to the near approach of adjournment no further effort will be made to get the bill reported. It is also probable that there will not be another meeting of the committee this session, and the pooling bill will also go over.

The tariff bill was taken up promptly. At the outset Mr. Teller, Colorado, made inquiries as to the reports that an anti-trust amendment would be attached. This was a most important matter, he said, and there should be ample time for the consideration of it. Mr. Allison said he did not know what disposal was to be made of the subject, as no action had been taken by the finance committee.

Mr. Teller said that it had been reported about the chamber that such an amendment had been considered in caucus. He said that it should not be brought in at the last moment for a vote, "as that will not be done." He added with positivity that no such hasty action would be taken. Mr. White, of California, remarked that he thought the entire anti-trust subject had been dropped. "I thought," the senator (White) and myself," answered Mr. Teller, "is that we are not members of the Republican caucus, and are therefore, somewhat in the dark."

### IN THE HOUSE.

Washington, July 1.—The house today adjourned until Monday after an extended attack by Mr. Settlemeyer, on the power of the house to adjourn for three days at a time. Mr. Settlemeyer made his attack on an amendment to the journal. He arraigned the Republicans for not acting on the bankruptcy and Cuban questions.

### A BURST OF HARMONY.

Nordica and De Reszke Have Buried the Hatchet.

New York, July 1.—From a cablegram received in this city from Minneapolis, Minn., it is evident that the opera singers M. Jean De Reszke and Mme. Nordica have "kissed and made up," and that they have settled their personal differences. The cablegram is as follows:

"London, July 30.—Having had an interview with Jean De Reszke, I proved that I had been misinformed and misled when I believed him the cause of my absence from the opera last season. Now, I wish to state that I am thoroughly convinced and happy to say that it was not M. De Reszke, but my impulse in declaring this publicly is my sense of right and justice to my fellow artists."

### "LILLIAN NORDICA DOME"

### RENOUNCES THE WORLD.

San Diego Heiress Becomes a Sister of Mercy.

San Diego, Cal., July 1.—At 9 o'clock this morning at St. Joseph's hospital, in this city, the solemn ceremony whereby Miss Katherine Moser entered her novitiate as a member of the order of Sisters of Mercy of the Roman Catholic church will be performed. The young lady who thus renounces the world is about 25 years of age and is handsome, accomplished and traveled and an heiress.

Her father, who has resided here for some time is Leo Moser, owner of large property interests in St. Louis and worth \$1,000,000. Katherine is the only child. Her father was strongly opposed to the action of his daughter, who was formerly a society belle of St. Louis and a graduate of Loreto academy. She has devoted large sums to charity in the past. Bishop Montgomery of Los Angeles will perform the ceremony.

### WILL TEST THE LAW.

Chicago, July 1.—The Clan-Na-Gael guards have decided to test the new state law against uniformed and armed independent societies. Maj. James J. Kelly and his men will turn out July 22 to participate in the unveiling of the Logan statue. Bandmen will march close to their independent citizen soldiery when they parade. There will be no rifles in the black mouths of their rifles, and it is said the defiance will be accepted. If no one else causes their arrest a member of another independent military unit will swear out warrants against them in order to bring the law into court.

### WABASH WRECK VICTIM.

Moberly, Mo., July 1.—Edwin Baker, aged 22 years, who was injured in the Wabash wreck Saturday evening at Careyville, Ill., is dead. His home was in Careyville, Ill. This makes the total number of deaths of the wreck eight.

### OFF FOR GETTYSBURG.

The Minnesota Delegation and Others Started Today.

Washington, July 1.—(Special to The Herald.)—The Washington contingent of the Minnesota party which will unveil the monument to the First Minnesota regiment at Gettysburg tomorrow left here today. It included all the members of the congressional delegation, Tom Hynes, ex-Senator Washington and three survivors of this regiment now living here. It is expected that extensive speeches will be made by several members of the Minnesota congressional delegation.

### TRIED TO ESCAPE.

Cincinnati Convent Girls Are Badly Treated.

Cincinnati, Ohio, July 1.—Maggie Gaffey, of Covington, aged 15, and Millie Fisher, of Cincinnati, aged 16, made a daring escape from the convent of the Good Shepherd in this city after midnight. They dropped twenty-five feet from a fourth story window to a roof of the convent and escaped. The girls told stories of starvation, hard work and cruel treatment, and threatened suicide if they are not released. The police will investigate.

### GOODNOW'S RECORD

Charges Against Him Preferred by Ex-Senator Washburn Tell Rather Flat.

Washington, July 1.—(Special to The Herald.)—The senate commerce committee held a lengthy meeting last night to listen to the argument of ex-Senator Washburn against the confirmation of John Goodnow as consul general to the Argentine Republic. Senator Washburn's statement fell rather flat and he was not able to make much of the charges against him. Senator Goodnow's record in the senate was rather flat and he was not able to make much of the charges against him.

Senator Washburn, of Minnesota, who represented Goodnow as an attorney, refused Senator Washburn's charge that Goodnow was uneducated and not capable of filling the position to which he was appointed. Senator Washburn himself answered several private charges made by Washburn against his private character.

Goodnow has sent to Minneapolis for a copy of the power of attorney which authorized him to accept certain names in the Argentine consulate matter, and Washburn has telegraphed for additional evidence in the case, so that the fight is not likely to be brought to an early finish. There is no doubt, however, that at present the majority of the members of the senate favor Goodnow's confirmation.

### GUIDESUPPE'S LEGS.

Turkish Bath People Claim to Recognize Them.

New York, July 1.—Mrs. Augusta Neck, the wife, who is under arrest in connection with the murder of the man supposed to be William Guidensuppe, spent the night a prisoner at police headquarters. She was indicted that Guidensuppe has not been murdered and that he will turn up alive before long. She insisted that she was Guidensuppe on Saturday afternoon two hours after the first portion of the body floating in the East river was found at the foot of Eleventh street.

The detectives are still continuing their investigation of the matter, and are making a vigorous search for the man who supplanted Guidensuppe in Mrs. Neck's affections. There is considerable speculation among the police as to the murdered man being Guidensuppe, notwithstanding the positive identification of the defunct finger by the missing man's friends.

Mr. Croft, formerly a constable from the bath house and an unknown man called at the morgue today and positively identified the body found yesterday as those of Guidensuppe.

### ABOUT THREE WEEKS.

Good Showing of the Government Expense Account.

Washington, July 1.—The monthly comparative statement of the government receipts and expenditures shows that during the month of June the receipts from all sources amounted to \$36,244,708 and the expenditures \$22,364,694, leaving a surplus for the month of \$13,880,014. The surplus during June, 1916, was \$2,294,430. The statement shows that the deficit for the fiscal year closed yesterday was \$15,625,106, a reduction of \$31,821,955 since March 1 of the present year.

Receipts from customs during June aggregated \$21,560,152 as compared with \$11,351,863 for June, 1916. The receipts from internal revenue sources during the last month were \$12,857,855, a loss as compared with June, 1916, of about \$200,000.

### WATSON'S QUERIES.

Georgia Populist Wants to Know Why These Things Are So.

Atlanta, Ga., July 1.—Thomas E. Watson, in a signed editorial in today's issue of his People's party paper, charges that the fusionists have entered into a compact to deliver the Populist vote to the Democrats in 1918, and that the \$100 recently contributed to the Populist fund by Mr. Bryan, out of the proceeds of his book sales, is the first installment of the purchase money.

His editorial concludes as follows: "We could wish that Mr. Bryan had kept his money in his pocket. He has made a mistake—just as he made a mistake when he joyously rushed a telegram of congratulation to McKinley. How such a devoted champion of the people could find it in his heart to reject the election of the representative of goldbugs and corporations we have not yet been able to comprehend."

"But, having thrown out these few remarks, we recur to our question, 'why have the fusion Populists taken Bryan's money, if they are not under obligation to deliver him the Populist vote in 1918?'"

### COMET REDISCOVERED.

San Jose, Cal., July 1.—Director Holton says: "Derst's periodical comet was rediscovered at Lake Observatory yesterday morning by Dr. C. D. Perrine and again observed this morning."

### BANKER'S SON SUICIDES.

Boston, July 1.—Alvin Dillaway, son of Frank D. Dillaway of the Merchants National bank, has committed suicide at his home, 22 King street, Dorchester, by poison. In competitive examination young Dillaway secured an appointment to West Point, but was expelled for a breach of rules before his course was completed.

## LITTLE CORPORAL

Interesting Volume of Letters of Napoleon Bonaparte to Be Issued.

### MADAME DE STAEL

Coriscian's Abuse of Her Was Unceasing--A Lot of Threats.

Paris, July 1.—M. Leon Leclerc, curator of the French archives, will issue during the present week the first volume of 200 letters which were suppressed by the editors of Napoleon's correspondence, issued in 1859, as not calculated to increase the glory of the great French emperor. The volume includes some heated family letters and some heated worded epistles to Fouché and Dabois, the ministers of police and war respectively. A letter to Marshal Soult in 1804 shows that Napoleon did not hesitate in adopting any means of obtaining confessions.

Napoleon's list of persons to be arrested was endless and his abuse of Madame De Staël was unceasing. Learning in 1807, through Marshal Victor, that Prince Augustus of Prussia was intriguing against him in Berlin, Napoleon wrote: "I am not astonished, because he has a dull mind and has spent his time courting Madame De Staël at Coppet (Switzerland), and, of course, could only pick up bad habits from her. Send word to him that at the first mischievous remark he utters you will lock him up in his castle and send Madame De Staël to console him. There are no men so cringing as these princes of Prussia."

Writing to Talleyrand in 1808 that prince of the former reigning family, Napoleon said: "You may send for Madame Talleyrand and four or five persons. If the prince of Austria should attach himself to a pretty person, it will be no drawback, as it would supply another means of watching him." Another letter from Napoleon to Talleyrand reads: "Your mission is honorable enough to receive three illustrious personages and amuse them and be quite in keeping with your character."

When Napoleon received the news, July 11, 1809, that the pope had excommunicated him, he wrote: "I will spare the pope. He no longer is a raving madman and must be locked up."

### THEY MARRIED YOUNG.

But Except on That Score There Was No Kick.

New Haven, Conn., July 1.—An announcement is made today of the marriage of Miss Florence C. Lewis, daughter of Mr. and Mrs. Frank A. E. Lewis, of this city, to Francis Westmore McMillan, son of United States Senator McMillan, of Michigan, which took place on Wednesday, Nov. 11, at Bridgeport. With the exception of the couple's immediate families no one was present.

Young McMillan graduated yesterday from the Sheffield scientific school at Yale. There was no opposition to the marriage of the young couple, but it was Senator McMillan's wish that his son should study longer, and the bride's parents wished a postponement for a few years because of their daughter's youth.

### AGAINST THE STATE

Another Decision By Secretary Bliss in the Section Thirty Case.

Washington, July 1.—(Special to The Herald.)—The "section 30" case is again before the interior department and another phase was decided today by Secretary Bliss. The title of the case is the state of Minnesota against the United States.

It will be remembered that in December last Secretary Francis decided against the state of Minnesota on application for a hearing to determine the character of lot 5, section 20, township 62 north, range 11 west, Duluth district, on the ground that the state should have offered more specific proof as to the character of the land at the date of the swamp land grant.

The decision today was with reference to lot 3 of the same section, and Secretary Bliss affirms the land office decision rejecting the state's application for hearing on the same ground as to lot 5. This decision probably will end the department's connection with this famous case, as it was the last in which the late John C. Judge appeared for the state.

### RAISED THE BALANCE.

Happy Baptists Will Now Get Rockefeller's \$250,000.

New York, July 1.—It is authoritatively stated today that John D. Rockefeller will be held to his offer of \$250,000 to the American Baptist Home Missionary society and the American Baptist Missionary union. The sum of \$250,000, upon the raising of which by the two societies by July 1 his gift was conditioned, has been secured and there will be a comfortable margin. The exact figures are not yet obtained, but the amount will run several thousand dollars over the mark.

H. L. Moorhouse, first secretary of the American Baptist Home Missionary society, said today: "If we had not succeeded in getting the full amount by today, Mr. Rockefeller would have been absolved from his offer and so would every other subscriber to the fund. We are indebted to everyone who has assisted us in the work and will take occasion to express our appreciation of their cooperation later."

### DIED OF MEXICAN FEVER.

Mexico City, July 1.—Charles E. Shackford, a well known American railway man, and an ex-employee of the Central at Guadalajara, has died of fever at Coatzacoahuac. He was returning from a trip to Guatemala.

### LOCOMOTIVE EXPLODES.

Chicago Suburban Express Has a Fatal Accident.

Chicago, July 1.—Five men were injured by the explosion of the engine of an incoming suburban train on the Chicago & Northern Pacific railway, at Morgan Park while the train was going at full speed, near Morgan Park station. The fireman of the engine, John Latchewy, will die from his injuries.

Following are the injured: John Fogg, engineer, terribly bruised and scalded, probably fatal; John Latchewy, fireman, crushed and scalded, will die; three men, names unknown, residing at Blue Island, bruised, will recover.

The train was the early morning suburban express, consisting of five coaches filled with passengers. Midway between the stations, and while under a full head of steam, the boiler of the locomotive exploded with a report which was heard for miles. The engine and fireman were thrown fifty feet. The passenger cars were thrown backwards by the shock with such violence that passengers in all of them were thrown over the seats and through the doors. Three of them were badly bruised. The cause of the explosion is not yet known.

### A BIG FRANCHISE.

Which May Mean Consolidation of Chicago Street Railway Lines.

Chicago, July 1.—An ordinance empowering the Metropolitan Traction company to build more than 200 miles of street railroad in Cook county has been passed by the county board. The roads over which the franchise extends are in Cook county, where it is likely to become desirable to build a street railway line. It is said that the combination of the street railways of Chicago with every suburban line now in existence and others to be built by the new company.

One project to be carried into effect by the company will be the carrying of freight from every town and village in the county to the limits of the city after 6 p. m., where it will be brought over the city limits in the big combination. In this way nearly every farm house will be brought within easy distance of means of transportation.

The new company is capitalized for \$10,000,000, and among its rumored backers are mentioned J. Pierpont Morgan, P. A. B. Widener, W. L. Elkins and Charles T. Yerkes, together with the men backing the General Electric company. No money compensation to the county treasury is provided for by the ordinance.

### THEY MARRIED YOUNG.

Mexico City, July 1.—Charles E. Shackford, a well known American railway man, and an ex-employee of the Central at Guadalajara, has died of fever at Coatzacoahuac. He was returning from a trip to Guatemala.

## BRITISH TROOPS

Twenty-Five Thousand British Regulars Reviewed By Queen Victoria.

### ALDERSHOT'S GLORY

Duke of Connaught in Supreme Command--Very Brilliant Event.

Aldershot Camp, Eng., July 1.—The great jubilee review of troops took place today, queen's weather prevailing. The town of Aldershot was gaily decorated with flags and festoons of flowers. Crowds of people flocked towards the camp from very early morning. Queen Victoria arrived at Farborough shortly before 4 o'clock and was received by the commander-in-chief, Lord Wolseley, the adjutant general, Sir Redvers Buller, the quartermaster general, Sir Evelyn Wood, and a brilliant staff. From the railroad station to the saluting point on Laffan plain, three miles distant, the route was gay with decorations, including arches with mottoes of welcome at different points.

The duke of Connaught, commanding the military district, was in supreme command of the troops, who numbered 25,000 men, including all the colonial forces, a division of cavalry, artillery and engineers and four divisions of infantry.

In the march past the colonial troops had the lead and were headed by Lord Wolseley, of Kandahar, at the head of the Canadian mounted police. The prince of Wales led the Tenth hussars past the saluting point.

Accompanying Queen Victoria was the princess of Wales; Princess Victoria, of Wales; the duke and duchess of York; prince and Princess Charles, of Denmark; all the colonial premiers, and a brilliant throng of titled spectators.

### PRESIDENTIAL APPOINTMENTS.

Higgins, of Delaware, Gets a Fat Consensus.

Washington, July 1.—The president today sent the following nominations to the senate: Treasury—George C. Bidwell, to be collector of customs for the district of New York; William F. Kemmer, justice of merchandise in the district of New York.

State—John F. Mowey, of Washington, to be consul general Yokohama; George N. West, of District of Columbia, now consul at Pictou, to be consul at Sydney, Nova Scotia. To be consuls—Oswald Bidwell, of New York, Port Erie, Ont.; John C. Higgins, of Delaware, at Dundee, Scotland.

Interior—Stanford Russell, of Missouri, to be receiver of public moneys at Fronton, Mo.; Lee Patrick, of Oklahoma, to be agent for the Indians of the Sac and Fox agency, Oklahoma.

Postmasters—Richard J. Rawden, Jr., of Ressemer, Mich.; Guy O. Frank, Minn.; N. D. Albert J. Clancy, Bellevue, Pa.; William G. Culberly, Custer, S. D.

### THE PHILIPPINE VOLCANO.

Killed 120 People and Destroyed the Tobacco Crop.

Manila, Philippine Islands, July 1.—Additional details of the eruption of the volcano in the province of Albano showed that 120 of the inhabitants of the village of Libong perished. The village was greatly damaged and the tobacco crop of the vicinity destroyed. The eruption was accompanied by an earthquake, the shocks being felt over an area of one mile. The volcano has been inactive since 1611.

### EX-SENATOR GATCH DEAD.

Des Moines, Iowa, July 1.—Col. G. H. Gatch, former state senator, died this morning.

## SATURDAY

will be the BANNER trading day of the season.

ALL THE LEADING STORES WILL BE CLOSED ALL DAY MONDAY,

So you must do your buying for the Fourth on Saturday. It is imperative that advertisers WHO DESIRE SPACE IN THE FRIDAY HERALD should have their copy ready early, as the Mechanical Department of The Herald will be taxed to its utmost.

## FOREST RESERVES

Government Formulates New Rules and Regulations For Their Preservation.

### FOREST FIRE RULES

Some Measures Which Will Affect Minnesota Forests Very Greatly.

Washington, July 1.—Much attention has been paid recently by the general land office to the preparation of rules and regulations applicable to the government of all the various forest reserves of the United States, and Commissioner Herman has now formulated these for the approval of the secretary of the interior.

Attention is called to the matter of forest fires which annually destroy so much timber through carelessness of prospectors, campers, hunters, sheep herders and others, and the law is specially referred to which imposes a penalty for wilfully setting fire to any timber upon the public domain, or carelessly to any timber, and which punishes such offense by fine or imprisonment. The law provides that anyone breaking camp, fires shall be totally extinguished, and the failure to do so may incur a penalty of fine or imprisonment. The fines are payable into the school fund of the county in which the lands are situated. Prospecting, hunting and developing the mineral resources of forest reserves are permitted. Lands for school houses and churches and for other public purposes are also allowed.

The construction of wagon roads is authorized and the right-of-way across the reserves for irrigating canals, ditches, dunes and reservoirs is permitted. The pasturing of live stock on the reserves is permitted, except as to sheep, which, in view of their injuries to the forests, are prohibited in regions where the rainfall is limited, and the present exception is to be regarded as extended only to the reserves in the states of Oregon and Washington, because of the extensive range and abundant rainfall of the Cascades of the Pacific coast ranges. Even there permission must be had, and is to be revoked if the pasturing extends to full run reserve, to crater lake or places where injury may be done, and license will be revoked where negligence as to herders' fires is shown.

Where persons have unperfected bona-fide claims within the reserves, they may relinquish the same and select in lieu thereof vacant public lands elsewhere. No claim is to be made where previous fire had been paid. Proof must be established of the claimant's right to make the claim of entry. Where patent has been issued, a quit claim deed must be executed to the United States and an acceptable abstract of title. Owners of mining locations are authorized to fill and remove from their mining claims any timber growing thereon for actual mining purposes upon their particular claim.

The free use of timber is allowed to bona-fide settlers, miners, residents and prospectors for minerals, for firewood, fencing, building, raising, erecting and domestic purposes where actually needed by such persons for such purposes. This privilege is restricted to persons residing within the forest reserves who have not a sufficient supply of timber on their own claims. The sale of timber from the reserves will be permitted in limited quantities, and this is done for the purpose of preserving the living and growing timber and permitting the younger growth of timber on the reserves. Strictly enforced rules will be applied to the sale of timber. An estimate of the quantity and kind of timber per acre above a certain diameter, together with an estimate of the value of the same as it stands.

These petitions are to be filed in the proper local land office. Before sale the timber will be examined and appraised under the direction of the department. The public notices will contain a mention of the time and place of filing bids and of the terms of the sale. In order to avoid a monopoly, the department may in sales in excess of \$500 make allotments of quantity to the several bidders; and the right is reserved to reject any or all bids. Within thirty days after an award of timber to a bidder, payment must be made in full to the receiver before the purchaser will be allowed to cut, remove or dispose of the same. Within one year it must be removed. Where it may be found necessary to erect temporary sawmills for the purpose of manufacturing the timber purchased on the ground a permit will be necessary. All timber so cut or manufactured must be used in the state or territory in which the reservation is situated.

Supplemental instructions are given to all special agents of the interior department to especially take cognizance of unlawful cutting of timber and deductions upon the public domain, including the forest reserves, and hereafter a vigilant watch will be directed toward the matter of forest fires, not only with a view of preventing the same, but also of apprehending and punishing those who wantonly and negligently fire the forests.

The law further provides that in the case of lands more applicable for mining and agriculture than for forestry purposes, upon a proper showing made, the same may be eliminated entirely from the forest reserve and restored to public domain. As to the reserves which have lately been suspended by recent act of congress, the geological survey is now busily engaged in examining them and of extending the outer lines, properly embracing such reserves.

## ORIENTAL NEWS

Japanese View of a Possible War With the Hawaiians.

### COREAN ASSASSINS

Philippine Rebellion Is Not By Any Means at an End.

Vancouver, B. C., July 1.—The steamship Empress of China, which arrived from the Orient, among the passengers is Judge Mowat, of Shanghai, who presided at the trial of Mrs. Carow and who is now en route to England on a holiday trip.

The Empress brings the following advice: The Jiji remarks in reference to the difficulty with Hawaii that "the government at Honolulu is somewhat uneasy and not the least intimidated by the pressure of the warship Maiana in these waters. They believe that Japan will not dare adopt so extreme a measure as to go to war with so small a country, being ashamed to do so. It is this that causes Hawaii to show such a bold front. It is a pity that it should be so, for if Hawaii goes too far she shall certainly be compelled to change her front."

Over twenty arrests have been made in Seoul, Korea, in consequence of the discovery of an alleged plot to assassinate several prominent persons. The Japanese papers alleged that the Korean party was at the bottom of the plot and that they are now taking advantage of its discovery to induce the king to return to the Russian legation. Professor Tanaka, who occupies the chair of physics and astronomy in the Imperial Japanese university, is said to have invented an earthquake alarm, which will be exhibited at the Paris exposition in 1929.

The Japanese government has imposed new taxes on land and on tobacco in order to meet the increasing demand upon the treasury since the war.

Fresh efforts are being made to have the murders of the queen of Corea punished, a petition having been presented to the king to that effect.

The Philippine Islands is not yet over. A few days after an attack was made by the rebels upon the town of Manila. The Philippine Islands is not yet over. A few days after an attack was made by the rebels upon the town of Manila. The Philippine Islands is not yet over. A few days after an attack was made by the rebels upon the town of Manila.

USE HORSEPOD'S ACID PHOSPHATE.

Dr. S. H. Moore, Indianapolis, Ind., says: "I have used it in my family in cases of indigestion and general debility, with entirely satisfactory results."

### IN THE DAKOTAS.

Thirty or forty drunken hoboes fought like demons among themselves at Milwaukee, Wis., yesterday evening. The riotous crowd, which included many of the homeless, was broken up by the police. The rioters were seen to be in a state of extreme intoxication and were engaged in a general assault upon each other and upon the property of the city.

The minister of the Lutheran church at St. John's, Minn., has been visiting in the city. He is a well-known figure in the community and has been active in various church and social work. His visit is part of a tour through the state.

Charles Robinson and Earl Henningson, confined in jail at Towson on a charge of assault on a 12-year-old girl named Taylor, have escaped. It is supposed they had outside assistance and that they are now hiding in the Turtle mountains.

South Dakota. The mother of Charles and Thomas Crawford died at the agency at Williston. She is said to be over 80 years of age, being one of the oldest women on the reservation.

Twenty-eight seven prisoners in the county jail at Pierre set free Fred Johnson, the jailer, and after briefly beating him, made their escape. Two of the prisoners are in jail at present. A posse of citizens is on its way to the jail to capture the escapees.

Prospectors appear to have come to South Dakota with a determination to stay. Almost everywhere throughout the state, miners are erecting houses, building fences and farm buildings. The lumber yards at Yankton report the sale of more lumber than at any season for five years. Elevators are being erected at nearly every railroad station in the state, and the prospect of a new era of mining is being realized.

Do you wear pants? We at overcoats on the 22-24-26-inch waists, in the pants—have placed them on a separate table—and will offer them at a low price. You will find them in the first case, first served.

AN EARL UNAWARES.

Rev. John Sinclair May Claim Title of Earl of Caithness.

Rev. John Sinclair, Presbyterian minister at Redwood Falls, Minn., is in St. Paul with two cousins, Mrs. E. G. Sinclair and her daughter, Miss Ella Sinclair, who have been making a trip around the world. They claim that Mr. Sinclair is the real earl of Caithness, Scotland, which title is now held by James Sinclair, a North Dakota farmer, to whom it was given after considerable search to determine who was next of kin.

THE DUCHESS OF MARLBOROUGH AS COLUMBIA.

Consuelo Vanderbilt, representation of Columbia, who she does not change her intention, promises to give one of the most beautiful impersonations of Columbia ever witnessed in any great costume affair. The duke of Marlborough has ordered a Louis XVI costume, with wonderful jeweled ornaments. The prince of Wales will represent one of his ancestors.

THE TRUE REMEDY.

W. M. Tephin, editor of the Tiskilwa, Ill., writes: "I have used Dr. King's New Discovery for my cough, cold, and asthma, and it has been a great help to me. I have been a sufferer from these troubles for many years, and I have tried many remedies, but none have done me as much good as Dr. King's New Discovery. I can now breathe freely and sleep peacefully, and I am able to do my work as usual."

DETROIT AND RETURN, \$12.00.

VIA DULUTH, SOUTH SHORE & ATLANTIC RAILWAY.

The Detailed Proposition Said to Be in Premier Greenway's Hands.

Winnipeg, July 1.—The Free Press says: "Premier Greenway has gone to Crystal City for a few days. It is understood that the detailed proposition of the company that wants to build the air line railway from Duluth to Winnipeg has been placed in his hands, and the question will be taken up by the cabinet on his return to the city."

Charles Robinson and Earl Henningson, confined in jail at Towson on a charge of assault on a 12-year-old girl named Taylor, have escaped. It is supposed they had outside assistance and that they are now hiding in the Turtle mountains.

## DUCHESS VS. BRADLEY-MARTIN.

The Devonshire Costume Ball in London Tomorrow.

London, July 1.—The duchess of Devonshire's costume ball at Devonshire house tomorrow, in imitation of the Bradley-Martins' famous entertainment at New York, is the talk of the aristocracy of Great Britain. It promises to be the most costly and spectacular social affair ever seen in London, as the duchess is striving to eclipse the Bradley-Martins' famous entertainment at New York.

The last great ball of this description was given by the prince and princess of Wales at Marlborough house in 1874, and many aristocrats, embarrassed themselves for years by extravagant expenditure in connection with it. The prince and princess of Wales have eagerly entered into the present project, and all the arrangements have been settled by them in consultation with the duchess of Devonshire. The idea is that the costumes are to be divided into periods. The representations of each period will form separate processions and pass before a throne, on which the princess of Wales will be seated in the character of Margaret of Valois, the prince standing beside her as Henry of Navarre.

The duchess of Devonshire, after much cogitation, has decided to appear as Zenobia. Her costume has been prepared from most authentic classical models, under the best archaeological advice. She is having a gorgeous diamond and ruby crown and other splendid jewels prepared and reset after ancient types. The beautiful Lady De Grey, who has been largely instrumental in arranging the function, is to appear as Cleopatra, with a real Egyptian negro boy, barefooted, but costumed sumptuously and covered with jewels, holding up a train. Her face is to be painted an olive tint, and her hair will be of Italian red. Lady Wolverton, the daughter of George, Lord Dudley, is to dress as Britannia, for which character her stately and somewhat staid beauty admirably suits her. Lady Tweedmouth, sister-in-law of Lady Randolph Churchill, is to be Queen Victoria, and her husband, Lord Bute, will lead the procession of that period.

To the Americans who will attend, the most prominent feature will be the duchess of Marlborough's (formerly

the duchess of Devonshire) costume, which is to be a reproduction of the dress worn by her in 1874, when she was married to the duke of Marlborough.

## THE WEATHER.

United States Agricultural Department.  
Weather Bureau, Duluth, 20 miles.  
Forecast for Duluth and vicinity:  
July 2.—Though numerous thunderstorms have occurred, the rainfall yesterday morning has been very light in amount, with showers confined mostly to sections of the Canadian Northwest, Montana and the Lake Superior region.  
In consequence of the air pressure continuing steadily high, the Canadian Northwest, southern winds have prevailed in all reporting districts, with falling temperature. In the Dakotas, Iowa, Missouri and Kansas, yesterday afternoon, the maximum temperature ranged between 80 and 90 at the stations of Minneapolis, St. Paul, St. Louis, St. Joseph, Omaha, Kansas City and Dodge City.

Duluth temperature at 7 p. m. today, 82; maximum yesterday, 86; minimum yesterday, 61.  
Local forecast for Duluth and vicinity: Light showers and probably thunderstorms tonight and Saturday; cooler tonight; light to fresh winds; mostly clear; 15 to 25 tomorrow.  
JAMES K. KALY.  
Local Forecast Official.

Chicago, July 2.—Forecast until 5 p. m. tomorrow: For Wisconsin, clear, warm tonight and Saturday with possibly thunderstorms; fresh southerly winds. For Minnesota, thunderstorms tonight and Saturday; cooler by Saturday afternoon; fresh southerly winds.

## TOMORROW'S EDITION.

The Saturday Herald tomorrow will contain many special features of interest to its numerous readers. The great international gathering of the Christian Endeavor society at San Francisco will be the subject of an illustrated article. The reunion of the Elks will be discussed, with illustrations of leading Elks will be given. Another important event of next week will be the Pan-Atlantic conference of bishops at London, England, which is being attended by Bishop Morrison and Rev. Dr. Ryan, of this city. The Herald tomorrow will tell about the work of the conference.  
The above are a few of the special features which will be found in tomorrow's issue. There will be others equally interesting, and as usual, all the news, both at home and abroad.

## TRACKLEAVING THIS YEAR.

The Railway Age this week says that railway building has proceeded slowly in the United States this year, as has been the case every year since the panic of 1893, and the end of the first six months of 1897 finds only 622 miles of new track laid, upon fifty-five lines, in twenty-three of the forty-eight states and territories. This is 105 miles less than in the corresponding half of 1896, nineteen miles less than in that of 1895 and about 100 more than in the first half of 1894. The number of states in which track has gone down is less than in any previous year for two decades and the number of lines is also less than in any of those years, except 1894. Twenty-six of the states and territories are absent from the list, but a number of these will appear in the record for the entire year. Not a mile of track was laid in Minnesota during the last six months.

Construction is in progress on very many lines. The cars have not yet begun, and if the financial situation continues to improve it is quite possible that 1897 may show more track laid than in either of the three preceding years. The present estimate, however, is that the new construction of the year will aggregate from 1800 to 2000 miles. The following figures show the extent of track laying done in each of the last eight years, commencing with the prosperous year 1889:

Year.	First six months.	Entire year.
1889.....	1895	6178
1890.....	1728	4282
1891.....	1307	4178
1892.....	1014	2635
1893.....	625	1948
1894.....	641	1792
1895.....	788	1848
1896.....	622	1848

A large number of projected and partly completed enterprises are waiting the return of good times, and the Railway Age says a steady increase in railway building is to be expected for some years to come, until many of the newer parts of the country are better supplied with facilities for transportation.

Among the larger lines now under construction are the Kansas City, Pittsburg & Gulf, on which 190 miles of track have been laid this year, leaving about eighty miles still to be completed; the Montgomery branch of the Mobile & Ohio, which involves building 210 miles of lines; the San Francisco & San Joaquin Valley, which has been sixty-five miles and has about ninety miles yet to build; and the Mobile, Jackson & Kansas City, with thirty of its 180 miles completed. The largest mileage by states this year has been laid in Louisiana, 111 miles, followed by California with ninety-two, Arkansas with fifty-seven and Wisconsin with forty-five miles. It is to be noted that railway building was practically suspended in the New England and Middle states, and that the work was confined chiefly to the Southern states, where the ratio of area and population to railway mileage still continues large.

MADE A GOOD START.  
The vigorous action taken by the mayor against the concert saloons, reinforced by The Herald's exposure of the character of the so-called concerts and the degrading features attending them, is having the desired effect. Some of them have closed altogether, while others are being conducted with more regard to the existing ordinances, and as soon as the council adopts a new ordinance giving the mayor and police complete power to close up these dens of iniquity, the evil will be entirely eradicated.

The story told by The Herald last evening of the shameful proceedings in these concert saloons was no doubt a surprise to many people, who did not know that such things were happening on the principal business street of the city and who had been misled by the claim set up by the proprietors of these places that they were conducting quiet and orderly and law-abiding concert halls. There can be no such claim set up hereafter, because the story related by The Herald exposed clearly the immoral character of the "concerts" and the degrading influences which they exert upon the young men who attend them. And yet The Herald did not tell the whole story; a newspaper which goes into the homes could not publish all the disgusting details of the nightly occurrences in these places.

Mayor Truelsen has made a splendid start in the repression of these immoral places and the aldermen should promptly pass the necessary ordinance in order that he may exterminate them. Dr. Charles A. Dana, the distinguished editor of the New York Sun, is reported seriously ill and confined to his home on Staten Island. The energy displayed by the veteran journalist for several years past was amazing, and it is not surprising that the physical engine shows the effects of the strain. The political course of the Sun has been erratic and mysterious, but there is no denying the fact that it has the ablest and brightest editorial staff in the country, and as a newspaper is unsurpassed.

Mark Twain has refused to accept the fund started by the New York Herald for his relief, and it is announced that he has taken this course "because he had any objections to accepting the money, but because his family objected." If this be true, it shows that Mark Twain has not much self respect, when he is willing to become an object of public charity while able to earn his living.  
The great quartet of pacers, John R. Gentry, 2:00½; Robert J., 2:01¼; Star Pointer, 2:02½; and Frank Agan, 2:03¾, entered in the great \$6000 free-for-all pace at Hartford on Monday, July 5, are attracting more interest in their work than ordinary horses do in an actual race. The 2-minute horse may be found in this quartet at Charter Oak park on Monday.

Experiments are being made with brick paved country roads in Monmouth county, Ill. The paving is eighty feet wide, flanked on both sides with crushed rock. A half mile of this kind of road was paved last year, and has been so satisfactory that the county authorities have let a contract for as much more.

The St. Paul Dispatch is shocked at what it calls the irreverence of the Ohio Democratic convention. It will be remembered that the devil has been accused of quoting scripture on certain occasions, when it suited his purposes, and consequently no one need be surprised at the Dispatch's suddenly acquired piety.

The Herald's dispatches yesterday told of the final defeat in the interior department of the absurd claim set up by State Auditor Dunn that section 30, on the Vermilion range, was swamp land, and therefore belonged to the state. The frivolous claim was promptly dismissed by Secretary Bliss.

There is one place at least where horses are valuable, and that is Alaska. It costs 40 cents a pound to transport them to the Yukon from the Canadian plains, so that a 1000-pound horse is worth \$1 a pound when he reaches there.

At last a Duluth Republican has secured a federal office outside the city. The Herald's Washington correspondent says ex-Governor Burke is to be given a place in the pension office. Congratulations, governor.

The promptness of the tax settlements by the various counties this year is regarded as proof that times are improving in Minnesota. The state treasury is now receiving from \$30,000 to \$50,000 daily from this source.

Schweinfurth, the Rockford, Ill., "angel," has purchased 200 acres of land in Missouri to start a heaven. The idea of a heaven in Missouri is startling.

There was a remarkable number of suicides by drowning in Chicago last month, but not one tried to break through the Chicago river.

ENDAVOR ARMY'S PROGRESS.  
Denver, Col., July 2.—Reports received at headquarters of the Denver & Grand Canyon railway and Colorado Midland railway today show that the west-bound trains carrying delegates to the Christian Endeavor convention and others tourists West, are moving through Colorado like clock work. Trains which arrived in Denver from East several hours late will reach Ogden on time. Up to midnight the Denver & Rio Grande hauled thirty trains carrying 7000 passengers out of Denver

for the West and today seventeen more trains left over the same road with 210 passengers each.

## NO "DOG-EARED" COLLARS.

What Third Regiment Must Wear at Lake City.

Col. J. C. Shandrew, of the Third Infantry, M. N. G., has just issued general orders No. 6, concerning the fourth coming annual encampment of the regiment at Lake City. The orders are as follows:  
Pursuant to general orders No. 6, A. G. O., this regiment will encamp near Lake City for six days commencing July 12, and ending July 17, 1897; but in accordance with the desire of the commanding officer and agreeable to expressed wishes of Companies B, C, E, F, G and H, will take the train so as to arrive at the Union depot, St. Paul, not later than 8 a. m. Sunday, July 11, and Company D will take train so as to connect at Red Wing with special leaving here at 5:30 a. m. of that date.

2. Each man is to be provided with full equipment (except dress uniform) including at least one white shirt, and two or more standing collars, not "dog-eared," no neckties to be worn on duty; black shoes.  
3. Section 17, article 6, military code, provides for pay for non-commissioned officers, stating such amounts as follows: "There shall be paid to non-commissioned officers, and each first sergeant, \$2.25; each sergeant and each corporal, \$1.75; and each other enlisted man, \$1.50; provided, however, that such payment shall be made to the men present and doing at least five days' duty at camp."

4. It is the earnest desire of the commanding officer that each company may bring a large number of men for the full time, hoping thereby to exceed the good results obtained last year.  
5. The attention of company commanders is called to sections 104-105, military code, referring to attendance for parades, drills and maneuvers. They will be required to account for each man not present at camp.  
6. On arrival at camp, field and staff officers will at once report to the commanding officer. Captains of companies A, C, G and H will report to Maj. Havely, and of Companies B, D, E and F to Maj. Van Duzee; battalion adjutants, non-commissioned staff and band to the regimental adjutant.

**MUST BE APPOINTED.**  
New Law in Respect to Court Commissioners.

In accordance with an act of congress passed May 28, 1896, the terms of all United States court commissioners expired on June 30, this year. The law provides a new method for the appointment of commissioners. Under the old law they were appointed by the judges of the circuit courts and held office during good behavior as long as they wanted the judges' consent. The new law provides that the judges of the district courts will appoint them and they are to hold office for terms of four years.

The law directed that all commissioners file their papers and records with the clerks of the circuit court in several districts by June 30, 1897, and in accordance with this, J. R. Carey and Capt. T. H. Pressnell, the commissioners forwarded theirs. Judge Carey has held the office of United States court commissioner thirteen years. He was appointed during the administration of President Buchanan before war. It is very probable that Judge Leach will appoint Judge Carey to the place.  
Capt. Pressnell may not be appointed although there is no probability of it. The new law prescribes that clerks or deputy clerks of circuit or district courts who have been employed by the attorney general gives his approval.

## THE WHITE PINE DUTY.

Senate Reduces the Tariff to One Dollar.

Washington, July 2.—The finance committee suffered several unexpected reverses during the progress of the tariff bill yesterday, being defeated on three important votes. Cotton bagging was placed on the free list, 30 to 25, and cotton ties also by a vote of 29 to 23. The duty on white pine lumber was reduced from \$2 to \$1 per 1000, 32 to 31.

The amendment on pine occasioned the greatest surprise and led to a general breaking up of party lines on both sides of the chamber. During the early stages of the debate, the duty on lumber including pine, was placed at \$2 after a protracted contest. Today Mr. Bailey returned to the contest and moved to place white pine lumber on the free list. The amendment was defeated by the yeas, 25 to 23, four Republicans, Baker, Carter, Hansbrough and Quay joining with the Democrats, Spooner and Silver Republicans in the affirmative, while three Democrats, Bacon, McEnery and Martin voted with the Republicans in the negative.

The bill is now completed with the exception of the reciprocity section and some comparatively minor paragraphs. Much progress was made today in clearing up detached paragraphs here—coal, tar, petrol and iron—remaining, so that these items, the reciprocity section, and the brief internal revenue and administrative provisions are all that remain of the bill to be disposed of before the final vote is taken.

**INTERNATIONAL CRICKET.**  
Bournemouth, Eng., July 2.—The cricket match between the gentlemen of Philadelphia and an eleven of Hampshire, which was begun yesterday, was continued today. The American players in their first inning scored 212 runs and at the close of the day yesterday the home players had scored twenty-five runs with no wickets down. At lunch time today the Hampshire cricketers had scored 188 runs for five wickets down.

**Remembered Mr. Olund.**  
The people employed in the government building yesterday presented Collector Olund, who is also custodian of the building, with a handsome locket as an evidence of their regard. Whitney Wall presented the locket and explained that it was an expression of the appreciation of the people in the building to the outgoing custodian. Mr. Olund was greatly pleased and responded, expressing his thanks and pleasure at receiving the gift.

# Grand 4th of July Celebration of... Bargain Giving--

**IN SHOES AND SLIPPERS.**  
All there is in Fashionable and Serviceable Footwear for Ladies, Gentlemen, Boys, Misses and Children.

Misses' Oxfords, \$1.50 grade **\$1.10**

**A. WIELAND,** 123 West Superior Street.

**SWINDLED SALOON MEN.**  
Fugitive Collector Wellborn Disgrace Is Growing.

San Francisco, July 2.—The plight of the fugitive Interior Collector Wellborn is far worse than the designation of officers of the federal government at first supposed. The inquiry that has brought disgrace upon the collector has opened a veritable mine of fraud. It is asserted that while he was buying champagne for the collector, he had the right to sign, he was telling saloon men that they need not pay their licenses. It is not yet known how many saloon keepers enjoyed Wellborn's favor. In this regard, but the investigation will be continued until the facts are discovered.

## 'VARSITY BOAT RACE.

Will Take Place at 6 O'CLOCK This Evening.

Poughkeepsie, N. Y., July 2.—The water conditions early today were in the main favorable for the triangular university boat race. The temperature was high and so was the humidity. The sky was clear and there was only a light breeze. Although there was much talk about the possible breaking of records there were few bets offered.

Cornell was backed to win at odds of 2 to 1, with no takers, some of the early stages of the race being based on the fact that in the drawing for positions the crew had again been given the outside Yale had this position last year and won and Cornell had it in both the varsity race of last week and the freshman race of last Wednesday, winning in both. The race is scheduled to begin promptly at 6 o'clock. The officers of the race who were chosen last night have all consented to serve.

**LASTER'S WAGES CUT.**  
Brocton, Mass., July 2.—What is taken to be the final step towards a general reduction in the prices paid for foodstuffs lasting throughout the city, was disclosed today when it became known that on their return to work after the usual summer suspension, the lasters of the G. C. Snow company would be asked to accept a reduction which means an average loss of 50 cents a day. The change will directly affect about seventy men.

**Gave the Officials a Drive.**  
State Treasurer Koerner returned home to St. Paul last night, accompanied by H. C. Warner, of the state auditor's office. During the evening C. M. Hill brought out his four-in-hand coach and treated Messrs. Koerner and Warner and a party of their friends to a most enjoyable drive to Lester Park. In the party were H. Popper, of New York; Matt Clark, of St. Paul; Fin Friese and County Auditor Hatden.

**Surprised Commander Wilde.**  
While the big steamer Corolla was at the Saunt on her way up a short time ago, Capt. McKay, her owner, who was on board with Commander George F. Wilde, naval secretary of the lighthouse board, learned that another of his boats, the Roman, had passed up just five hours ahead of the Corolla. As the Corolla neared the lighthouse board, he learned that the lighthouse board had learned that another of his boats, the Roman, had passed up just five hours ahead of the Corolla. As the Corolla neared the lighthouse board, he learned that the lighthouse board had learned that another of his boats, the Roman, had passed up just five hours ahead of the Corolla.

**Keep Cool**  
The A. Booth Packing company is making a one fare rate for the holidays and resuming, expressing his thanks and pleasure at receiving the gift.

## GOODNOW'S CONFIRMATION.

It is Still a Question of Some Uncertainty.

Washington, July 2.—(Special to The Herald.)—Contrary to expectation and report, ex-Senator Washburn did not accompany the Minnesota party to Gettysburg to attend the unveiling of the monument today. In view of the fact that Senator Nelson also remained here there is considerable ground for the belief that these two gentlemen are keeping watch on each other.  
Goodnow's confirmation is yet a matter of uncertainty. This contest grows more interesting every day, but it is believed that Goodnow will be confirmed.

## Proclamation!

It is becoming that old and young should, in a proper manner, celebrate the day of our National Independence, which is so dear to the heart of every loyal American citizen. On account of July 4th falling on Sunday, Monday, July 5th, will be observed as the legal holiday instead. Permission is hereby given for the proper use of fireworks on that day, excepting the use of cannon crackers, pistols and placing explosives on street car tracks, also the discharging of heavy explosives on our main business thoroughfare in the heart of the city, it being observed last year that by careless use of fireworks on Superior street property was destroyed and life endangered, and in order to avoid a repetition, the police have been instructed to arrest offenders. The many deplorable accidents and casualties that occur on the day of our National fete should impress both old and young to exercise great care in the use of fireworks and let us hope that this timely warning will impress itself on the good people of the city and that it may be received in the spirit in which it is given, that the celebration of joy of our National holiday may not be marred by the loss of life, limb or destruction of property.

Very Respectfully,  
**HENRY TRUELSEN,**  
Mayor.  
Duluth, Minn., July 2nd, 1897.

**Duluth Ice Cream Company.**  
WHOLESALE.

Saturday Night.

### FIGHT ON CULKIN.

Union Men Sending Letters to Washington Against His Appointment.

The following appeared in the Minneapolis Journal yesterday: "The labor people of Duluth are making the shouting as hard as they can for Senator W. E. Cullin in his fight for the position as head of the Duluth land office. It was supposed that when Mr. Cullin had a session with some of the labor leaders of this city and St. Paul he so fixed things as to remove a large part of this opposition, but this, it seems, is not the case. It is true the labor people of the Twin Cities are saying very little, but the labor unions of Duluth are more than making up for this silence. A Journal man had a talk with Representative E. C. Schmidt, of Duluth, this morning on the Cullin matter.

"Organized labor in Duluth," said Mr. Schmidt, is relatively stronger than anywhere else over the state. Every one of our trades is organized, and the unions have the faculty of working together on all matters of common interest. It is this fact which makes the Cullin case such an interesting one. Not long ago Congressman Page Morris came home for a short trip, announcing to the people of the district the day after he reached Duluth that he would recommend Mr. Cullin's appointment. That announcement seems to have stirred the labor people up from the very bottom. Letters and resolutions representing the labor sentiment of the city of Duluth most thoroughly have been sent to Washington, some of them to the president direct, others to the senators, condemning the proposed appointment and asking that it be not made. If made, the senators are asked to use all their influence to defeat it. Pressure has also been brought to bear, but with what success I do not know, upon senators from other states who are supposed to be more or less friendly to labor interests, and from all

I can learn, if the president makes the appointment an effort will be made to prevent confirmation.

"Personally I am very friendly to Mr. Cullin. I came to know him very well last winter during the legislative session, and with his legislative record in mind, do not see what just cause for complaint the labor people have. But that is neither here nor there. They are against him and doing all they can to defeat him."

Mr. Schmidt does not know, of course, what the president will do, nor does he have any idea what effect the appointment, if made and confirmed, will have upon the local politics, particularly congressional politics, next campaign. The question, however, is an interesting one in all its phases.

It is probably Mr. Cullin's ambition to go to congress some day, from the new district, with Duluth as its focal point, which will be carved out after the adjournment of 1898. He is already well known and in good repute in the counties which will form the lower part of that new district. Anoka, Wright, Isanti, Sherburne and others. If he goes to Duluth for four years, he will have a splendid opportunity to get into favor with the leading Republicans there, and so be able to put in a strong bid for the congressional nomination at the end of his term as register of the land office. Doubtless this is Mr. Cullin's plan, and it is this which has urged him to make so determined a canvass for the registership. With this view of the case, the opposition of the solid labor interests of the district is rather formidable. It is unfortunate that it should have come on, for even if Mr. Cullin gets the appointment, as he probably will, the labor people will still be unfriendly. The very fact that he succeeds will add to the feeling of opposition, and probably make him a marked man should he ever come up for an elective office. That is, if the feeling is allowed to run on unchecked.

**Duluth Citizens!**  
Can always secure lowest round trip rates at the Eastern Minnesota city ticket office, 422 West Superior street, San Francisco, June 29, July 3, \$29.00 Milwaukee and return, July 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, **Pure Spring Water.**  
Delivered daily. Telephone orders to Stewart's livery, telephone No. 334.

## IS STILL AT WORK

Pumphouse Committee May Be Able to Make a Report Tonight.

### A DIVISION LIKELY

Possibility That Concert Hall Saloons Will Not Be Granted Licenses.

The pump house investigating committee expected to have its report ready for presentation to the council this evening. A session was to be held at 5 o'clock this afternoon, when it was hoped, that the last obstacle to unanimity would be cleared away. The findings of facts will be the same as those of the report submitted Monday evening. The rub is over the question of arranging the members of the board of public works.

Some of the members of the committee fail. It is understood, to see sufficient evidence of any ulterior intent on the part of the board to warrant a resolution of impeachment. It is possible, though, that these members, for the sake of the unanimity they all profess to desire, will consent to a resolution expressing it as the sense of the committee that the board has been guilty of carelessness in making the contract for the additional work.

The majority, however, favor the original resolution and object strongly to having its claws pared in the slightest degree, even in case the minority will consent to a resolution similar to resolution No. 1. In the report of Monday, repudiating the contract with Fredericksen and requiring him to accept a contract at \$22,000 or step out. The majority will be introduced this evening forbidding the appearance of female singers or performers in saloons.

Several of the aldermen are taking a great deal of interest in the matter. During the whole investigation, they have hovered about early and late and have had many long conversations with the members of the board.

There may be fun over the question of granting licenses to the saloons that have been running with a concert attachment. Several aldermen have announced that they intend to make a hard fight to turn down the applications of the proprietors of these places. And the fact that the concert saloons have received at the elevated hour and eliminated the concert feature will not help them either.

The fire commissioners will, it is expected, be present to discuss the estimated expenditures with the council.

### STOLE MANY RINGS.

John Cummings Makes a Nerve Entry Into a Jewelry Store.

A young man giving his name as John Cummings made a daring attempt to get away with a tray of rings from the jewelry store of W. V. Vandenberg, 214 West Superior street, last evening. He was captured after an exciting chase and taken to the station.

The affair occurred about 7 o'clock. While J. J. Vandenberg, who lives in the rear of the store, was at supper, Cummings slipped in, took a tray of rings and stole out.

Mr. Vandenberg heard Cummings shut the front door on his way out and hurried into the front part of the store. He at once detected the loss of the tray and went out into the street where he was told by a passer that a man with a tray had been seen leaving the store.

Mr. Vandenberg ran up Second avenue west and encountered Cummings streaking it through First alley. The latter turned back and was stopped by a man who had been following him. Officer George Drennan appeared on the scene at this juncture and arrested the fugitive. In the latter's pocket, thirty-nine rings were found. They were the most valuable there were in stock, indicating that Cummings is a critic in the jewelry line. The prisoner gave his occupation as that of a bookman and said he had been working about the docks.

"The Greekian dames are amused," "Tio, and Cress, Act I, Scene 2. Our dames even rid themselves of this trouble, they used Ponds' Extract."

Household goods stored in good brick storehouses for \$1 per ton per month.  
P. S.—Trunks delivered for 25 cents.

## BABY'S SKIN

In all the world there is no other treatment so pure, so safe, so speedy, for purifying, softening and beautifying the skin, scalp, and hair, and eradicating every humor, as warm baths with CUTICURA SOAP, and gentle anointings with CUTICURA Ointment, the great skin cure.

**Cuticura**

Our Strawberries and other Fruits for the Fourth will be especially choice, the very finest the market affords, selected with the utmost care as to the quality.

## RATHBUN'S.

DULUTH'S OLDEST HOUSE.

Efforts May Be Made to Save It from Destruction.

The oldest house in Duluth is in a fair way to be demolished, and some people, among them members of one of the chapters of the Daughters of the Revolution, are interesting themselves in an effort to have it preserved, if possible.

This house is located on the lake side of Lake avenue, about 200 feet north of the canal. It is a rather large frame house, and, of course, shows the signs of age. It was built in 1856, forty-one years ago, by Robert Emmet Jefferson, brother of Alderman Ernest R. Jefferson. He pre-empted a large piece of land in that vicinity. A syndicate, consisting of Charles Nettleton, Rice, Toblins, Perry and others bought the land from him and, according to the story, he retained an interest in the land. They platted Upper and Lower Duluth. On one of the lots Mr. Jefferson built this house, and ran a sort of hotel or stopping place. At the time of the gold excitement on Vermilion lake in 1885, J. R. Carey was running the house as a hotel.

Later on the building was used as a residence. It was purchased by Dr. Foster, and the Fosters lived there for some time. Then it was sold, and has since changed hands several times. It is not known as yet just what can be done to preserve the historic building, but it will be made to save it from demolition if possible.

**AMUSEMENTS.**

**AT THE PAVILION.**  
The Pavilion had a big crowd at yesterday afternoon's matinee, and it was composed almost entirely of women and children. The performance was satisfactory, as usual, and the audience was apparently well pleased. Last night there was another large crowd. Tomorrow afternoon there will be another matinee, and this week's bill will close tomorrow night, with the exception of loss show, who will give an extra performance Sunday. A pleasant feature of the Pavilion is the freedom with which women and children may attend the matinees without escorts.

**"MASTER AND MAN."**  
Next Monday the Marks Bros. Dramatic company will give a four-weeks' engagement at Turner hall in "Master and Man," a strong and very interesting play. The company comes well recommended and is said to present an exceptionally fine line of dramas.

For packing and moving household goods go to Duluth Van company, who are headquarters for business men. Reasonable prices. 215 W. Superior st. P. S.—Trunks delivered for 25 cents.

"SILVER CLOSS"

Lac line has been closed all day because of washouts at different points, but it will be repaired sufficiently this afternoon to permit of the passage of

(Continued on page 8.)

The greatest damage was probably done at the West End. Lincoln Park is a wreck. The immense volume of water seeking its level through the banks of Miller's creek had no respect for the handiwork of man, which endeavored to direct its course quietly, peacefully through narrow channels and winding stream could not contain a small percentage of the water. It was soon over-run and a new channel cut further north. The small houses mentioned above were directly in its course, and in a little time the entire area between the street and the creek was a ruin. The houses were washed away, and the little houses were completely destroyed.

(Continued on page 6)

UNCLE SAM—HURRY UP, OLD FELLOWS AND JOIN US IN OUR FOURTH OF JULY SPORT.

Tillie—They say Mr. Hightower has been wandering in his mind lately.  
Willie—Well, he's safe enough, he can't wander far.

GREAT LUCK.  
First Englishman—I made the greatest catch of the season today.  
Second Englishman—What was it, a ten pound bass?  
First Englishman—No, a ten thousand pound bass.

BUT THEY DID PART.

1—Mr. Beau—Yes, darling, we'll never part again.

2—Bang!!

3—Miss Drops—Mr. Beau, our engagement is broken.

THE DEFINITION.

Little Erastus—Fowler, what kinder fish is er speckled trout?  
Father—Er, I don't no zactly, son, but I guess he's a reglar trout wif spectacles.

AN UP-TO-DA TE POLLY.  
Boy—Polly want a cracker?  
Polly—See here, young feller, you ain't a going to spring that newspaper chest-nut about fire cracker, are you? Aw, go chase yourself.

THEY ACCOMMODATED HIM.

1—Bicycle Bill—Boys, you can't get any fun out of those little fire crackers and cap pistols, why don't you get something that will make more noise?

2—Chorus of boys (as his tire explodes) How does that strike you?

APPROPRIATE.

Maud—Let's take our wedding tour on this tandem.  
Claude—Where'll we go?  
Maud—Along the bride paths, to be sure.

He—I have never gone home intoxicated in my life.  
She—Where do you stay?

A FOURTH OF JULY EPISODE.

The day he sought to celebrate  
By drinking of the cup.  
His wife was patriotic too,  
And straightway blew him up.

WHAT "LIMITED" MEANS.

The word "limited" in connection with corporations and business concerns and firms, explained a prominent lawyer to a Washington Star reporter, "is now in general use. It originated in England, and almost every business concern there is a limited partnership, or of all the cities in this country Philadelphia has more limited partnerships than any other, though there was not one there twenty-five years ago. Philadelphia got the idea during the Centennial, and, it having been found by experience to be a good thing, it has grown constantly. It means that those interested in a firm are only interested to a limited extent, that is, only to the extent of incorporation. The limit of one member of a firm, therefore, may be \$3000, or any other part. Thus, in the firm of Brown, Jones & company, limited, Brown may have three-fourths of the stock, and Jones and the others the remaining fourth. It limits the responsibility, as it makes a member of the firm liable only for that which is named in the articles of incorporation. In this kind of corporations or firms the law which allows them to limit their responsibility also requires that the word 'limited' shall always be used in naming the firm, so that all may know exactly that though there may be a large number of heavy men financially interested in the concern, their interest and responsibility are limited. It is a fair thing all around, for it prevents the use of big names, which have sometimes been used to boom enterprises

and corporations, when in reality the owners of the names have had but little interest in the concerns."

THE PSALMS IN GALLIC.

Albert T. Bell, of the university, has lately been sent a curious book, published in Edinburgh, of interest to students of Biblical lore or to devotees of the modern Scotch movement, says the Nebraska State Journal. The book is entitled, "The Psalms in Gaelic." The book is a translation of the Psalms into Gaelic, and is a very interesting work. It is a translation of the Psalms into Gaelic, and is a very interesting work. It is a translation of the Psalms into Gaelic, and is a very interesting work.

The translator, the Rev. P. Hately Waddell, promises that if he receives sufficient encouragement for his translation of the psalms into Gaelic, he proposes to proceed with the translation of the rest of the Bible.

## Cyclone and Flood

Portion of the Village of Barnum Wiped Out by a Cyclone Followed by a Cloudburst.

## Houses Destroyed

Every Bridge in Town Washed Away, the Streets Torn Up and Several People Badly Injured.

St. Paul, July 5.—(Special to The Herald.)—A telegram addressed to Governor Clough from Barnum last evening, signed by William Cahn, village president, stated that a portion of the village had been destroyed by a cyclone and flood. The governor was asked for aid for building. Governor Clough has not yet returned from his trip to Gettysburg with the members of the First Minnesota regiment, and the telegram was forwarded to him. Executive Clerk Angell wired to Barnum for further particulars. He asked if clothing, food and shelter were wanted. The reply said that the village was able to care for all its people, but needed aid for building sidewalks and bridges. Specialists state that a cyclone, followed by a cloudburst, passed south of Barnum Saturday. The Moosehorn river rose rapidly and in five hours the water stood three feet deep in every house on the level ground, and a raging torrent ran through Main street, compelling everyone to make a hasty move up stairs. Several families could not remove their effects. Every bridge in town was washed away and the streets were torn up completely.

The houses of J. Murphy, William Nevers and Fred Maguire were blown away and Mrs. Murphy badly injured, the former probably fatally. The St. Paul & Duluth lost several bridges and several miles of track. A great many logs and ties floated away. The water has subsided, but the town looks desolate.

Sturgeon Lake was also visited by the cyclone and cloudburst and damage was done there. It is reported that a number of buildings were demolished and several people killed at that place, but the particulars are not obtainable at present.

THE WHITE PINE DUTY.

The Two Dollar Rate Likely to Be Restored.

Washington, July 5.—(Special to The Herald.)—Congressmen Tawney, Morris and Eddy are using every effort to secure the restoration of the duty of \$2 a thousand on white pine, and have the assurance of several senators who voted with the opposition, when this matter was up in the senate, that they will now support the \$2 rate, if the proposition is reconsidered in that body.

If it is not brought up in the senate again, a fight will be made in conference, and Tawney is especially confident that the \$2 rate will be restored.

NEW CAR FERRY LINE.

One to Operate Between Detroit, Windsor and Sandusky.

Detroit, Mich., July 5.—The News will say: Within a few days a contract will be signed between the Moreton Truck and Storage company, of Detroit, and the receivers of the Baltimore & Ohio Railroad company, for a car ferry service between Detroit, Windsor and Sandusky. The Baltimore & Ohio will have no financial interest in the ferry company, but will have a traffic arrangement which it is expected will be mutually beneficial.

At Detroit and Windsor the ferry line will connect with the Grand Trunk and through that line with the Wabash, Detroit, Lansing & Northern, Flint & Pere Marquette and other railroads leading from Detroit and Windsor. Two car ferries with a capacity of twenty-eight cars each will be placed in service at once.

GOBBLED BY ENGLAND.

British Warships Takes Possession of Solomon Islands.

London, July 5.—A special from Sydney, N. W., says that the British warship Wallaroo has hoisted the "Union Jack" on Russell, Belona and Stewart islands, belonging to the Solomon group.

THE TOWER CELEBRATION.

The Fourth Being Observed With Much Enthusiasm.

Tower, July 5.—(Special to The Herald.)—The weather and streets are all that could be desired. Tower and Soutan are in holiday attire. The mines and mills are all closed and large crowds

are on the streets which are gaily decorated with bunting and streamers and flags. The largest in the history of the city. All the industries were presented. The procession was three-quarters of an hour in passing a given point. Much regret was expressed that the Order of Railway Conductors' excursion was prevented from attending.

HAVING A GOOD TIME.

The Governor and Staff Will Leave Washington Tonight.

Washington, July 5.—(Special to The Herald.)—Governor Clough and his staff have been having a very nice time in the capital city since their arrival here Saturday. Yesterday the governor, while his staff circulated about town and saw everything, talked politics with Senator Nelson.

Today, however, the governor and his staff have attended to several duties. They first made call at the state, war and navy departments, later at the White House and later Mrs. Davis tendered the governor and his staff an informal reception at the residence of the senator on Massachusetts avenue.

Late this afternoon the governor, escorted by Charles M. Smith, of St. Paul, and staff, called upon ex-governor Lilienthal, who is in the city for the day. The governor and staff will leave for home at 8 o'clock tonight.

DAMAGE AT NEW DULUTH.

Serious Injury Was Done By Friday Night's Storm.

Now Duluth, July 5.—(Special to The Herald.)—The storm Friday night was very severe here and never in the history of New Duluth has the water risen with such rapidity. Several families living in "Happy Hollow" near the Hurd Refrigerator company's plant were obliged to leave their homes in boats, and all of their household effects were thoroughly soaked with water. The chickens, geese and turkeys, and the water was three feet deep on Brynne's island, and it was with difficulty that Mrs. Brynne and her family were rescued from their home by boats. The Leifsson Lumber company lost 500 pieces and part of their boom. Hermann, Becklinger & Hermann lost all of their logs, 2000 pieces, which were in their mill boom. The current was so strong that the piling and boom holding logs in pond were lifted and all floated down the river. Work at Holmbach, LeBeau and Hermann, Becklinger & Hermann mills is suspended. The telegraph poles boomed near Fond du Lac, belonging to Oscar Peterson, floated down the river, as well as a lot of logs belonging to other parties.

The creek running in the rear of the Hurd refrigerator plant was never so high, and the water ran over the two railway bridges in the Hurd refrigerator company's yards, forming a regular waterfall, washing out and undermining these two bridges. The big railway bridge at Fond du Lac is washed out and no trains can run to the depot at that place until repairs are made. The water at the Holmbach mill was several feet deep and great damage was done to the mill yard.

GLASS WORKERS' CONVENTION.

Many Delegates Are Gathered in Pittsburgh.

Pittsburgh, July 5.—The twentieth annual convention of the American Flint Glass Workers' union began here at 10 o'clock this morning with about 150 delegates, representing local unions in a dozen states and Canada, in attendance. Today's session was short and an adjournment until tomorrow was taken after a temporary organization had been effected, in order that the delegates could participate in the independence day celebration in Pittsburgh.

The actual business of the convention will begin tomorrow morning when thirteen branches of the glass trade will be represented. William J. Smith of Pittsburgh, the national president since 1884, will preside. Among the matters of importance to come up before them is the annual election of officers, reports of the grievance committee, the question of the abolition of the annual convention, the manufacturers' demand for a 10 per cent advance in the chimney move system in the pressed glass branch, and other technical matters. A picnic, boat rides and banquets are features of amusement which have been planned.

OARSMAN HIGGINS DEAD.  
London, July 5.—Higgins, the oarsman, is dead.

ON A POLITICAL MISSION.

Clough's Visit Mainly to Confer With Nelson.

Washington, July 5.—(Special to The Herald.)—While Governor Clough's big retinue of staff officers have been seeing the sights of the capital for the past two days, the governor himself has been in frequent consultation with his former political partner, Senator Nelson. Naturally the gentlemen are not giving away their plans, but the inference is that plans for the next state campaign have been settled and the candidates of the Nelson-Clough combination decided upon.

Of course, neither Senator Nelson nor Governor Clough will disclose this matter. The actions of the governor and a number of the members of his party would indicate that their visit East is more of a political than a patriotic mission.

PULLMAN ROAD RACE.

Carl Anderson Was the Winner—Five Hundred Starters.

Chicago, July 5.—Carl A. Anderson, a seven-minute man, won the Pullman road race in 49:30. R. W. Merrill and Charles Terryberg, 6-minute men, were respectively second and third. Charles Lavin, a scratch man, was first time prize winner with a time of 10 minutes and 15 seconds; Fred Nelson and Orlando Adams, scratch men also, were respectively second and third time prize winners; James Levy, the winner of last year's time prize in the Pullman road race, fell from his wheel on the last turn today breaking his leg. The event, properly speaking, was the second annual road race of the South Side Cycling club. The race was over the Pullman course; the start being made at the corner of Michigan and Jackson streets, out through Washington Park, down the historic Midway Plaisance and through Jackson Park, thence south to the village of Pullman, a distance of eighteen miles. The field was the largest that ever started in a Western road race, nearly all of the 517 entries responding to the call of the starter.

The conditions were far from perfect, last night's heavy rain having softened the roads, while the great number of riders and the narrowness of the west of the park system, brought disaster to many an ambitious rider. Eight men were on the match. "Pop" Smidley, the winner of the Decoration day road race, being given a handicap of six minutes and thirty seconds. The start was scheduled for 8:30 a. m., but the great number of riders made the race a rather unbecoming affair, and it was after 9 o'clock before the men were sent away.

EDUCATIONAL ASSOCIATION.

National Council of That Body Gathers in Milwaukee.

Milwaukee, July 5.—The National Council of Education, which meets prior to the National Educational association, began its first session here this morning, most of the members being present. The morning session was devoted to "the high school and its functions" and a report of the committee on secondary schools.

The afternoon session was given up to the "Aesthetic Element in Education," which was considered by John Dewey, of the university of Chicago; W. F. Harris, United States commissioner of education, and Miss Mary E. Nicholson, principal of the normal school at Indianapolis, Ind.

W. H. Bartholomew, chairman of the committee on secondary schools, submitted a report covering an investigation as to the high schools of forty-six cities including most of the principal ones in the country. From this report it appeared that one-half of 1 per cent of the scholastic population, or 15 per cent of the number entering graduated from the high schools. With few exceptions the schools are in public favor. Many have well selected libraries, while others are permitted to use public libraries furnished by the state. All the high schools except one prepare pupils for entrance into college. Fifty per cent have a regular course in physical training. Eighty per cent are co-educational. The North and East, with few exceptions tend to co-education, and the South and West to the opposite. There is a growing sentiment in favor of separation.

MINNESOTA APPOINTMENTS.

More Are Expected at an Early Date.

Washington, July 5.—(Special to The Herald.)—Immediately upon the return of the president from Canton, it is expected that a number of Minnesota appointments will be sent to the senate. Several Minnesota politicians here, who seem to be in the confidence of the chief executive, however, say that no more Minnesota appointments will be made until Goodnow is confirmed and the tariff bill is out of the way, which events it is predicted, will be contemporary.

It is not doubted that ex-Congressman Snider will be given a good place and that Professor Swenson will be nominated to the Danish mission. The collector of customs at St. Paul will undoubtedly be sent to the department of congress, and the general belief now is that "H. Foote" will be chosen.

SULTAN GETTING SENSIBLE.

Constantinople, July 5.—The sultan now shows signs of yielding on the question of the ratification of the Turkish frontier in the direction of Greece, and the ambassadors expect negotiations for peace will be resumed today or Tuesday when it is hoped everything will be settled in accordance with the views of Europe.

STINGENT FOOD LAWS.

France knows how to protect the rights of its people. Anybody who doubts the genuineness of an article of food that he has purchased from a Parisian, may take it to the municipal laboratory for analysis. It will cost him nothing to have it analyzed and the fact determined whether it is unadulterated or adulterated, and if the latter the law deals with the offender without further action on the part of the purchaser. The shopkeeper is liable to be heavily fined and imprisoned, and has to display conspicuously in his shop window or on his door for a year a large placard bearing the words "Convicted of Adulteration."

## Panton & White, GLASS BLOCK STORE.

### Unceasing Effort is the Key= Note of Success!

After the smoke and noise of today we are prepared for the hurry and bustle of the business of tomorrow. We offer for tomorrow such bargains as these, everyone of them worth double the price we ask.

Do not fail to take advantage of these unparalleled offerings!

#### Silk Samples.

From the Nonotuck Silk Co.

1000 yards Black and Colored Silks from the Nonotuck Silk Co. They are drummers' samples of Black Gros Grains, Black Sixth Duchess, Black Brocade, Changeable Taffetas, Figured Taffetas, Checked Silks, etc. All in short lengths, retail values up to \$2.00 per yard; to sell them out quick we say, a yard

#### Jewelry Dept.

SHIRT WAIST SETS—

# FLOODS AND LEVEES.

The Mississippi river has sunk to its normal proportions and the flood of 1897 is a thing of the past, although the results of the river's overflow are still visible and will be noticeable for some time to come. The damage reached very large figures, and the expense occasioned by the floods will be felt by the people of the submerged districts for a long while. In the city of New Orleans alone, according to the accounts made up by the Orleans levee board, the cost of fighting the flood amounts to \$17,000. There has been high water in former years, but the height this season, according to the Pleynue, is unprecedented. On May 14 the river was 19.5 feet above low water, an excess of 1.5 above any previous flood record. At Vicksburg, April 16, the gauge showed a flood of 22.5 feet, which was one foot five inches above the flood of 1892, the highest known record.

The Pleynue takes direct issue with Gen. Herman Haupt in regard to the value of levees, and it has nothing but good words for the artificial banks, which shows that, as Gen. Hancock said of the tariff, the levee is only a local issue. It is the opinion of Gen. Haupt that the levees only protect certain districts, while causing damage in other places, which but for them would occur. The river, he says, has been the example of the engineers who build up the river banks by filling up its channel until its bottom is in many places above the level of the surrounding country. This remedy for floods, therefore, is a minimization of the levee and a careful expansion of the principle of outlets as universally applied to canals.

New Orleans is one of the "protected districts" referred to by Gen. Haupt, and the Pleynue is convinced that the levee system of protection is all right. It declares that this year's extraordinary visitation of water in the Mississippi valley was resisted with greater success and with less damage to the levees than was ever before the case in any flood season. It admits that great injury was wrought in the submerged districts of Arkansas and Mississippi; but it contends that the loss in those districts was not so great as it would have been had the levees not been the great lines of levees still standing, which "concentrated the greatest force of the river within its channel and hurried the water out to sea with a rapidity unknown when many miles of the levees were destroyed and the river spread over the wide expanses of the lowlands without restraint."

The theory that the levees will concentrate the current and give it increased force the Pleynue believes to have been established, and it holds that all that is required to make the levees a sure defense against floods is sufficient solidity, a problem that will be solved by piling up earthen levees, embankments, it says, saved Holland, and they will save Louisiana and the lowlands of the Mississippi valley. It dismisses the theory advanced by the objectors to levees, that the bottom of the river is continually rising, as a mere assumption, unsubstantiated by any evidence whatever.

**A PALPABLE FALSEHOOD.**  
The St. Paul Pioneer Press, which never permitted a day to pass during the last campaign without publishing some falsehood about Mr. Towne, has returned to its old mud-throwing tactics. Yesterday it published a Washington dispatch alleging that Mr. Towne was responsible for the action of the Senate in cutting the duty on white pine from \$2 to \$1, and the News Tribune repeated the story today, saying:

"Duluth lumbermen express the opinion that the duty on lumber of \$2 which was cut in two by the Teller amendment a few days ago, will be restored before the bill finally becomes a law. A special to St. Paul paper says that the belief is expressed in Washington that ex-Congressman Towne had a hand in the reducing of the duty on lumber and that it was intended as a blow at Congressman Morris."

The News Tribune's propensity for blundering was again exhibited when it said that the duty was cut in two by the "Teller amendment." It was not the Teller amendment. Senator Teller wanted white pine put on the free list, and he no doubt represented the sentiment of the Colorado people when he so voted. Senator Quay of Pennsylvania voted the same way, and so did three other Republican senators. The Mantle amendment making the duty \$1 could not have been adopted without the votes of Republican senators. Of course there is no truth whatever

in the story that Mr. Towne worked in favor of cutting the duty from \$2 to \$1. It is a miserable falsehood concocted with the deliberate purpose of injuring him with those people who believe that the duty should be fixed at \$2. It is well known that Mr. Towne will be a candidate for congress again next year against Judge Morris or whoever may be the Republican nominee, and the story now circulated by the Pioneer Press, News Tribune and other Republican organs was conceived with the idea of making political capital against him and creating sentiment in favor of the Republican candidate who may be selected next year. Unconsciously, however, these organs have given credit to Mr. Towne for extraordinary influence in shaping legislation at Washington. It is not every ex-congressman who can influence the senate in such a way, and if it were true that Mr. Towne was able to induce Republican senators this political opponents to vote as he desired he must be regarded as possessed of wonderful power. The organs have over-reached themselves with this palpable falsehood.

# THE COAL MINERS' STRIKE.

The strike of almost the entire bituminous coal mining force is an event of far-reaching importance. Not only will it entail suffering upon the immense number of men who are directly affected, but it will result in the enforced idleness of hundreds of thousands of others through the paralysis of business caused thereby. The great public who are not directly concerned in a labor trouble of this kind, says the Detroit News, are always anxious to put their sympathy and their aid in the right place. It will not do to jump at conclusions of any kind. Human nature is the same in the heart of a coal miner and in that of a millionaire. The judgments of the public must be based upon the facts, but facts are not always easy to be gotten at. If we start with a feeling of condemnation for men who will throw the business of the country into confusion at such a time as the present, we are met by the alleged facts contained in the letter of the secretary of the United Mine Workers to Senator Mason, of Illinois. He says that the miners can make but 75 cents per day when working all day, and that they have but half a day's work. Hence the average family—and miners' families are uniformly large—has but 37½ cents a day to live upon. This, Mr. Ryan says, will not buy sufficient food, to say nothing of rent and clothing.

If these are the facts, the condition of the miners must be conceded to be very hard. But on the other hand, adds the News, when these same men tell us their opinion of the causes and the remedies for these evils, we are led to think they must be following some weak and empty reasoning. Mr. Ryan says that the trouble lies in business competition. "The insane competition inaugurated by the coal operators has brought about a condition of suffering and destitution which was never equalled," are his words. The object of the strike, then, is to destroy competition. Now, what is the public to think, when, for the first year, they have been taught to regard all combination which destroys competition as the most destructive of our liberties? In response to the public opinion which these laborers have largely helped to form, the whole trend of national and state legislation in recent years has been to conserve the old competitive system by making the methods unlawful and even criminal that would destroy it. John Sherman's latest utterances are: "Trusts destroy competition," and "the people have a right to the competition of these industries." The miners' secretary says: "The insane competition has brought suffering and destitution never equalled."

Now who is right and who is wrong?

# REVENUE AND THE CURRENCY.

Referring to the improved treasury receipts of the last few months, the New York Sun says that the most valuable result from it "is the silencing of the idle clamor, which started under the Cleveland administration, against the government demand notes as compelling the sale of bonds for their redemption." The Sun points out that while \$25,000,000 in gold has been exported within the last two months, of which the treasury furnished \$15,000,000, nobody feels any alarm and nobody talks of selling more bonds with which to procure more gold. "The currency is good enough as it is," says that paper, "and all the reform it needs is to be let alone. With a revenue sufficient or more than sufficient for government expenses, the currency of the United States, as at present constituted, will be as good as that of any country of the world."

These views coincide with public sentiment on this question outside of Eastern banking circles and the small number of currency reformers who are clamoring for a change but are not agreed upon what should be done, except that they want the legal tender notes destroyed. The Omaha Bee (Rep.) says: "It is understood that the administration will have a plan of currency reform to present to congress at the regular session. There can be no objection to this, but the country does not want any agitation of this subject at present, nor is there any necessity for a commission to consider it. The currency we have has been found entirely satisfactory in periods of greatest prosperity, and there is no good reason for any distrust of it now."

The Bee might have added that there will be no more reason for agitating this subject when congress meets in regular session, nor for the appointment of a commission. What likelihood of a commission, when the likelihood is, if currency reform should be deemed advisable, that a commission would be able to formulate a better plan of reform than could be prepared

by the regular committees of congress which are appointed to deal with this subject?

The only surviving descendant of Count Pulaski is at present in the Philadelphia almshouse, and this, together with the fact that the United States government never rewarded the valuable services rendered by Pulaski in the revolution and has steadfastly refused to do anything for his heirs, has induced Congressman Young of Pennsylvania to offer a bill in the house of representatives appropriating \$100,000 for the relief of the last Pulaski representative.

In one of the most attractive of New York's suburbs a local ordinance has just been conspicuously posted, by the terms of which "No license shall hereafter be issued to the driver of any vehicle under 18 years of age." In commenting on this a local paper remarks that to judge by the appearance of their "vehicles" the hackmen have nothing to fear from the liberal enforcement of this rule.

The Washington Post says: "What we want is to preserve the type, and of best of all can we afford to lose the Alliston type. Such savviness, such softness, such melting and suggestive chiaroscuro, such dreamy vagueness of outline, such mezzo voice, such bashful gossamer of statement, such indistinct and beautiful twilight of reply, surely we shall never see again."

Complaints from stockholders have led the Western Railroad, of France, to publish some curious facts about passes given to the press. Passes were issued in 1896, which, if paid for, would have added to the receipts of the company \$23,000 francs; to counterbalance this the newspapers printed free advertisements for the railroad, which would have cost it \$1,634,000 francs.

An insurance policy in the East has issued "Fire Tables for 1897." From this series of figures it is seen that in 1896 the losses were \$118,000,000, a decrease of \$24,000,000 from the losses of 1895; \$25,000,000 under those of 1894, \$50,000,000 less than 1893, and \$24,000,000 lower than in 1892. Unfortunately there is no text with the figures showing the cause of the encouraging decrease.

The old claim that the British people know nothing about the geography of America has been refuted by a letter recently received at the head of the lakes. It was addressed thus: "Miss H— P—, care of H— L— P—, Esq., Lehigh Valley company, West Pottsville, Wis., near Duluth, U. S. A."

The Omaha Bee expresses the opinion that if Collis P. Huntington would call his Southern Pacific lobby off from Washington the foreclosure sale and reorganization of the Union Pacific would make better progress.

This is the greatest day of all the year for the small boy.

It is a curious fact that the most bitter opponents of Hawaiian annexation are Republican newspapers. The Omaha Bee is an especially strong opponent of annexation.

When prosperity does arrive, it will not be necessary for Secretary Gage or any other high official to tell the people that it is here.

Will the new tariff be a revenue producer? This is the question that perplexes the Republican tariff-makers.

All the large circuses are staying out of Ohio this year. The great political circus is too strong a competition.

# DOMESTIC IDYLS.

Yonkers Statesman: Mrs. Church—Did you ever catch your husband flirting?

Go home—That's the way I did catch him.

Philadelphia North American: Papa Crumley—I judge a man, sir, by the company he keeps.

Mr. Old Sinner—Yes, sir, I hope you will bear in mind that I have been keeping company with your daughter for over two years.

Detroit Free Press: "Do you believe in hypnosis?" he asked as he looked indignantly into her great brown eyes.

"I must," she answered, with all the bravery she could summon, "I believe that you are going to kiss me, but I am powerless to resist."

Indianapolis Journal: Husband (groaning): "The rheumatism in my leg is coming again."

Wife (with sympathy)—Oh, I am sorry, John! I wanted to do some shopping to-day, and that is a sure sign of rain.

Chicago Post: "If a man should undertake to kiss you by force," he remarked, after looking at her both admiringly and thoughtfully for some time, "what would you do?"

"What could I do?" she returned. "I'm no Hercules."

And it is on record that she didn't do a thing.

Washington Star: "A great many women marry men for the purpose of reforming them," remarked the observant citizen.

"I suppose so," replied the man who was reluctantly writing a check, "but sometimes they misjudge a man. Now that you recently believed I was a miser, my wife unjustly suspected me of the habit of saving too much money."

Harpers' Bazar: "Why, Mr. Baxter," replied Miss Fribble as she sat on the porch of the seaside hotel, "your proposal astounded me! We met only yesterday for the first time, and I know of you absolutely nothing about you."

"That is very true," Miss Fribble replied Mr. Baxter. "I do not ask you to take my word as to my social standing. I am ready to show you testimonials from all my last summer's dancees."

A Boston Belle.

She mastered all the points of etiquette with great facility.

In learning to play what she showed remarkable ability.

She understands the harp, and plays the violin delightfully.

A discord—It is not the Wagner kind, amays her rightfully.

She sings, and paints, and rides to will be no more reason for agitating this subject when congress meets in regular session, nor for the appointment of a commission. What likelihood of a commission, when the likelihood is, if currency reform should be deemed advisable, that a commission would be able to formulate a better plan of reform than could be prepared

by the regular committees of congress which are appointed to deal with this subject?

The only surviving descendant of Count Pulaski is at present in the Philadelphia almshouse, and this, together with the fact that the United States government never rewarded the valuable services rendered by Pulaski in the revolution and has steadfastly refused to do anything for his heirs, has induced Congressman Young of Pennsylvania to offer a bill in the house of representatives appropriating \$100,000 for the relief of the last Pulaski representative.

In one of the most attractive of New York's suburbs a local ordinance has just been conspicuously posted, by the terms of which "No license shall hereafter be issued to the driver of any vehicle under 18 years of age." In commenting on this a local paper remarks that to judge by the appearance of their "vehicles" the hackmen have nothing to fear from the liberal enforcement of this rule.

The Washington Post says: "What we want is to preserve the type, and of best of all can we afford to lose the Alliston type. Such savviness, such softness, such melting and suggestive chiaroscuro, such dreamy vagueness of outline, such mezzo voice, such bashful gossamer of statement, such indistinct and beautiful twilight of reply, surely we shall never see again."

Complaints from stockholders have led the Western Railroad, of France, to publish some curious facts about passes given to the press. Passes were issued in 1896, which, if paid for, would have added to the receipts of the company \$23,000 francs; to counterbalance this the newspapers printed free advertisements for the railroad, which would have cost it \$1,634,000 francs.

An insurance policy in the East has issued "Fire Tables for 1897." From this series of figures it is seen that in 1896 the losses were \$118,000,000, a decrease of \$24,000,000 from the losses of 1895; \$25,000,000 under those of 1894, \$50,000,000 less than 1893, and \$24,000,000 lower than in 1892. Unfortunately there is no text with the figures showing the cause of the encouraging decrease.

The old claim that the British people know nothing about the geography of America has been refuted by a letter recently received at the head of the lakes. It was addressed thus: "Miss H— P—, care of H— L— P—, Esq., Lehigh Valley company, West Pottsville, Wis., near Duluth, U. S. A."

The Omaha Bee expresses the opinion that if Collis P. Huntington would call his Southern Pacific lobby off from Washington the foreclosure sale and reorganization of the Union Pacific would make better progress.

This is the greatest day of all the year for the small boy.

It is a curious fact that the most bitter opponents of Hawaiian annexation are Republican newspapers. The Omaha Bee is an especially strong opponent of annexation.

When prosperity does arrive, it will not be necessary for Secretary Gage or any other high official to tell the people that it is here.

Will the new tariff be a revenue producer? This is the question that perplexes the Republican tariff-makers.

All the large circuses are staying out of Ohio this year. The great political circus is too strong a competition.

**DOMESTIC IDYLS.**

Yonkers Statesman: Mrs. Church—Did you ever catch your husband flirting?

Go home—That's the way I did catch him.

Philadelphia North American: Papa Crumley—I judge a man, sir, by the company he keeps.

Mr. Old Sinner—Yes, sir, I hope you will bear in mind that I have been keeping company with your daughter for over two years.

Detroit Free Press: "Do you believe in hypnosis?" he asked as he looked indignantly into her great brown eyes.

"I must," she answered, with all the bravery she could summon, "I believe that you are going to kiss me, but I am powerless to resist."

Indianapolis Journal: Husband (groaning): "The rheumatism in my leg is coming again."

Wife (with sympathy)—Oh, I am sorry, John! I wanted to do some shopping to-day, and that is a sure sign of rain.

Chicago Post: "If a man should undertake to kiss you by force," he remarked, after looking at her both admiringly and thoughtfully for some time, "what would you do?"

"What could I do?" she returned. "I'm no Hercules."

And it is on record that she didn't do a thing.

Washington Star: "A great many women marry men for the purpose of reforming them," remarked the observant citizen.

"I suppose so," replied the man who was reluctantly writing a check, "but sometimes they misjudge a man. Now that you recently believed I was a miser, my wife unjustly suspected me of the habit of saving too much money."

London, July 6.—Prince Victor Duthel-Singh, who has been prominent in London society, son of the great Indian potentate, Duple Singh, who started ten years ago to stir up a revolt in India under English auspices and who was stopped and brought back to England, is engaged to Lady Ann Coventry, sister of Viscount Darnley.

**HAD A LARGE CROWD.**

Chicago, July 6.—With between 2000 and 3000 teachers on board the white-back steamer, Christopher Columbus left today for Milwaukee, where the instructors will attend the annual meeting of the National Education association. Delegates from all the surrounding states and many from Southern and Eastern states were among the

## BOUNTY WITHHELD

War Bounty Amendment Will Not Be Presented at This Session.

## A CAUCUS DECISION

It Will Come Up Early in December at Next Session.

Washington, July 6.—The Republican senatorial caucus today decided to not again present a best sugar bounty amendment to the tariff bill and Senator Allison was authorized to move to amend the tariff bill to provide for a bounty on sugar.

## PROVES OF ELKS.

Grand Lodge Cohorts Arrive in Minneapolis—They Own the Town.

Minneapolis, July 6.—The grand lodge of the Benevolent Order of Elks, which is the focus around which the annual reunion of the country's Elks centers, met this morning in the Metropolitan hotel in Minneapolis.

Senator Foraker suggested that the entire question of the sugar bounty be left to the committee on the tariff bill, and he should leave the question to the committee on the tariff bill.

## CONSIDERING THE BILL.

Senate Enters Right on the Final Debate.

Washington, July 6.—Without any preliminary business the senate today entered upon the consideration of the tariff bill.

## WHITE PINE DUTY.

Senator Davis Says Senate Will Vote Again on the Question.

Washington, July 6.—(Special to The Herald)—Senator Davis says there will be another vote upon the white pine schedule in the senate, but Senator Nelson thinks the chances of restoring the \$2 rate are much better in conference than by making another fight on the floor.

## GREAT RITE FLYING.

Lieut. Wise Unfurls Old Glory in the Sky.

New York, July 6.—Lieut. H. D. Wise celebrated Independence day on Governor's Island with kite flying experiments. He unfurled the national colors 100 feet above the earth.

## GOVERNOR EVANS' FUNERAL.

Denver, Col., July 6.—The body of the late John Evans, ex-governor of Colorado, lay in state at the capitol today, from 10 a. m. to 1:30 p. m., and was viewed by thousands of people.

## PAY THEIR OWN EXPENSES.

London, July 6.—It has been erroneously reported that the expenses of the United States special ambassador to the queen's jubilee was \$8000.

## BARON THIELMANN'S RECALL.

Berlin, July 6.—The official papers announce that Baron Thielmann, the German ambassador at Washington, will be recalled. It is said he will be given the post of secretary of the treasury.

## PLUMS WILL SOON DROP.

Many Federal Appointments Are Expected Very Soon.

Washington, July 6.—(Special to The Herald)—There is a prevalent belief among the members of congress that all important appointments to federal positions which can be made will be sent to congress between now and the adjournment of the present session.

## LABOR'S THROB

Great Strike of the Coal Miners Is on In Several States.

## BOTH SIDES FIRM

Men Generally Are Obeying the Order to Stop All Work.

Columbus, July 6.—President Hatch of the United Mine Workers is greatly pleased with the progress of the present strike and regards the outlook as exceedingly bright.

## RELIEF FOR STRIKERS.

Columbus, Ohio, July 6.—Monday's dispatch contained telegrams from the general Hocking Coal company, says there is at least 150,000 tons of coal in storage in the Northwest.

## INTERSTATE ARBITRATION.

Indianapolis, Ind., July 6.—The Indiana labor commission today sent letters to the labor commissions of Ohio, Pennsylvania and Illinois inviting them to meet with the Indiana commission.

## ALL OUT AT MOWEQUA.

Columbus, Ohio, July 6.—Every miner in the coal shaft here went out this morning. They have made no demands for an increase, and are orderly and well-behaved.

## HIS AWFUL PERIL.

Gotham Workman Caught in Quicksand—Fire Department Saves Him.

New York, July 6.—A gang of firemen were engaged nearly all the forenoon in a struggle to save a workman from being engulfed by quicksands in Henry street, where excavations have been in progress for several days.

## SHERMAN ON ARBITRATION.

Secretary of State Illustrates His Views Humorously.

Washington, July 6.—In speaking of the miners' strike, Secretary of State Sherman says that a solution of these problems must be found by the employers and those in their service.

## WEST VIRGINIA WILL WORK.

Charleston, W. Va., July 6.—Chief Mine Inspector J. W. Paul, who has been keeping in touch with the several coal fields in West Virginia, said that there is at present no indication that the miners of this state will go out.

## DANVILLE MEN WORKING.

Danville, Ill., July 6.—The miners of the Danville district are all at work in the coal mines, which they accepted. They will receive 2½ cents more per ton for mine run and have two check weighings.

## SOME SERIOUS DEFLECTIONS.

Pittsburg, July 6.—The strike of coal miners is on in the Pittsburg district, but reports as to its extent are so conflicting and meager that it is difficult to tell how many responded to the strike order.

## MONSTER CHORUS

Thousands of Voices Will Blend in Christian Endeavor Songs.

## FINE DECORATIONS

San Francisco a Sea of Endeavor Badges—The Arriving Hosts.

San Francisco, July 6.—All is now in readiness for the great Christian Endeavor convention. About 6000 delegates will arrive today and twice as many more tomorrow.

## RELIANCE FOR STRIKERS.

Columbus, Ohio, July 6.—Monday's dispatch contained telegrams from the general Hocking Coal company, says there is at least 150,000 tons of coal in storage in the Northwest.

## INTERSTATE ARBITRATION.

Indianapolis, Ind., July 6.—The Indiana labor commission today sent letters to the labor commissions of Ohio, Pennsylvania and Illinois inviting them to meet with the Indiana commission.

## THE DAY IN DULUTH

No Lack of Opportunity to Have a Good Time Yesterday.

### EVERYONE WAS OUT

Results of Contests at the Driving Park--At Lincoln Park.

The national holiday was well celebrated in Duluth yesterday although there was not nearly as much noise as usual. The weather after the shower in the morning was delightful throughout the day and evening, and prompted everyone to be out of doors. The contests and races at the driving park drew large crowds, the Pavilion had its full share and in fact every resort in the city was well patronized. At Lester Park there were several thousand people during the day. Bratigan's summer garden had large crowds, too. Every car on the street railway lines was well filled and usually crowded during the day. Park Point caught large numbers also. The bath houses and toboggan slides were running and large numbers took a dip in the bay.

The number of serious accidents was few, but a number of others are reported as lost and burns and minor accidents were quite plentiful.

#### THE BICYCLE RACES AND GAMES.

The bicycle races and games at the driving park yesterday afternoon made that the most popular amusement in the city, and more than 2000 people witnessed the events. The program was a good one in all respects, and there were some very pretty finishes in the bicycle events. The time was not fast because of the wind, but the races were close and exciting. The principal event of interest was the five-mile handicap. The scratch men were the leaders, though the handicaps were apparently large enough. Benson, Locking, Murphy and Zwiefel were the four who were in the race between them was a very pretty one. There were several changes in the different laps, and the stretch was anybody's. Murphy lost his place because of the wind, but Zwiefel and Zwiefel finished first, followed closely by Benson and Locking in their order. The time was 14:15.

The two-mile scratch race was tame, the riders soldiering a great deal and the winner, J. R. Zwiefel, making the distance in 7:40, very poor time. In the mile novices, Will Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

## THE DAY IN DULUTH

No Lack of Opportunity to Have a Good Time Yesterday.

### EVERYONE WAS OUT

Results of Contests at the Driving Park--At Lincoln Park.

The national holiday was well celebrated in Duluth yesterday although there was not nearly as much noise as usual. The weather after the shower in the morning was delightful throughout the day and evening, and prompted everyone to be out of doors. The contests and races at the driving park drew large crowds, the Pavilion had its full share and in fact every resort in the city was well patronized. At Lester Park there were several thousand people during the day. Bratigan's summer garden had large crowds, too. Every car on the street railway lines was well filled and usually crowded during the day. Park Point caught large numbers also. The bath houses and toboggan slides were running and large numbers took a dip in the bay.

The number of serious accidents was few, but a number of others are reported as lost and burns and minor accidents were quite plentiful.

#### THE BICYCLE RACES AND GAMES.

The bicycle races and games at the driving park yesterday afternoon made that the most popular amusement in the city, and more than 2000 people witnessed the events. The program was a good one in all respects, and there were some very pretty finishes in the bicycle events. The time was not fast because of the wind, but the races were close and exciting. The principal event of interest was the five-mile handicap. The scratch men were the leaders, though the handicaps were apparently large enough. Benson, Locking, Murphy and Zwiefel were the four who were in the race between them was a very pretty one. There were several changes in the different laps, and the stretch was anybody's. Murphy lost his place because of the wind, but Zwiefel and Zwiefel finished first, followed closely by Benson and Locking in their order. The time was 14:15.

The two-mile scratch race was tame, the riders soldiering a great deal and the winner, J. R. Zwiefel, making the distance in 7:40, very poor time. In the mile novices, Will Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

Quarter-mile open, scratch--J. R. Zwiefel, first; R. N. Hoople, second; C. E. Benson, third. Time, 2:45 seconds.

One mile club handicap--Dink Close, 30 yards, first; Will Close, 45 yards, second; H. B. Gifford, 45 yards, third. Time, 1:12 1/2.

## USE POND'S EXTRACT

Genuine absolutely Pure; contains no Wood Alcohol, as many substitutes do; can be used with

### PERFECT SAFETY

INTERNALLY AND EXTERNALLY. POND'S EXTRACT Subdues All Inflammations, Controls All Hemorrhages, Relieves All Pains.

For Insect Bites, Sunburn, Chafing and Summer Complaints IT IS UNEQUALLED.

#### Beware of worthless imitations

that do not do "just as good."

POND'S EXTRACT CO., New York and London.

#### DULUTH THE WINNER.

##### Defeated Superior Again in the Cricket Match.

Duluth won the cricket match at Superior by a score of 94 to 82. Only one inning was played. H. R. Walker, of Duluth, carried off the honors, making 30 runs before retiring. R. M. Currie, of Superior, came next with 29 runs. Frank Craswell, at the critical point in the game played up 22 runs and saved the day for Duluth. The Superior team played splendidly. The score was as follows:

#### NO SLEEP FOR THREE MONTHS.

One Cause of Sleeplessness That Can Be Readily Overcome.

William Handschu, of Forty-sixth street, Cortlandt, N. Y., writes:

"I have been suffering from sleeplessness for three months. I have tried every remedy, but have not been able to get any sleep. I am now so weak and nervous that I cannot do my work."

"I have been suffering from sleeplessness for three months. I have tried every remedy, but have not been able to get any sleep. I am now so weak and nervous that I cannot do my work."

#### PERFORMING HORSES.

##### Seventy at the Same Time in One Circle.

The trained animal exhibition with Barnum & Bailey's greatest show on earth this season is simply amazing. When this new perfect feature was presented in New York the Daily Sun said it was "the sublimest culmination of harmony." Seventy thoroughbred horses are seen at one time, all engaged in the performance of difficult feats, tricks, drill or maneuver, and the whole company are witnessed in the execution of these things at once. Four concentric rings are placed within one of the regular circus rings, and it is here the horses go through their series of performances. This very wonderful performance was thought by many to be impossible, but by perseverance, aided by novel methods, perfect success has resulted, so that now for the first time can be seen this astounding equine display. This is without doubt the most ambitious as well as the most meritorious and successful effort in the line of trained animal exhibition the eyes of man ever gazed upon. It is, however, but one of many new and extraordinary attractions of this season's show, for there are in addition an exceedingly interesting exhibition: the Maypole dance, the famous Johann, an equestrian tournament with high jumping and long-distance leaping horses, Maypole dancing, the famous Johann, an equestrian tournament with high jumping and long-distance leaping horses, Maypole dancing, the famous Johann, an equestrian tournament with high jumping and long-distance leaping horses.

Two menageries, three herds of elephants, camels, and fifty acres of rare and valuable plants, all of which are also, while the list of other sights and wonders is simply overwhelming. They will all be seen in the morning at 10 o'clock, showing the 40-horse team, Columbus on his return to Barcelona, and hundreds of other objects.

#### WRECKED BY A WASHOUT.

##### Three Killed in a Boston & Maine Wreck.

Woodville, N. H., July 6.--A freight train on the White Mountain division of the Boston & Maine railroad was wrecked by a washout at a point four miles north of this station early today. The engine and the engine with a car and three cars were badly wrecked. The killed are:

Patrick Lennon, engineer, Whitefield, N. H.

Bert Peabody, fireman, Woodville, N. H.

O. E. Lange, brakeman, Berlin, N. H.

SENATOR HARRIS VERY ILL. Washington, July 6.--Senator Harris, of Tennessee, was resting more easily yesterday, but was still considered in a serious condition. The senator is very old, and some months ago was pros- trated by severe attack of the grip. He subsequently rallied, but never fully regained his strength, and the doctors are regarded with grave apprehension.

A PLUCKY OLD LADY. Canton, O., July 6.--Mother McKinley is about the house as usual. This morning and apparently suffering no serious effects from her fall of yesterday. She herself believes the accident and says the wound, which is still sore, is not painful, but she will soon be entirely recovered from it. She rested well last night.

SELECTED BY MORRIS. Washington, July 6.--(Special to The Herald.)--Representative Morris has requested the appointment of Andy Thompson as postmaster at Smith Lake.

OLD PEOPLE. Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey or any other harmful ingredients. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding nature in the performance of its functions. Electric Bitters is an excellent appetizer and aids digestion. It is sold in 50-cent and \$1.00 per bottle. At Duluth Druggists' drug store.

SILK VESTS? A full line of latest patterns of silk vests just opened.

C. W. ERICSON. The Clothier.

\$2.00 St. Paul, Minneapolis and return, via St. Paul & Duluth railroad, July 6 and 7. Tickets, 332 West Superior street.

Elks Excursion. For Minneapolis and St. Paul, Duluth lodge, No. 133, leaves on the 11 p. m. train, July 6, and returns on the 11 a. m. train, July 7. Tickets good returning until July 11 on the Eastern Minnesota. Join us. Not necessary to be an Elk to go. The price of the excursion is \$1.00. Tickets may be had at M. S. Burrows' store.

Special Excursion to Toronto and Return. Only \$27. meals and berths included, leaving on steamer Monarch, July 6; Empire the 10th. For further information call on No. 11 Lyceum building.

Summer Excursion Rates. VIA ST. PAUL & DULUTH R. R. St. Paul, Minneapolis and return, July 5 and 6, \$4.30.

Detroit, Mich., and return, July 3-6, \$18.75.

Lake Chautauque, N. Y., and return, July 11-12, \$22.50.

Detroit, Mich., and return, July 10-11, \$18.75.

Chattanooga, Tenn., and return, July 12-15, \$27.50.</

**Used Some Shells as Ornaments for Their Tribal Fireplace.**

We found that the country in the  
 "border was" and covered the  
 "border" that reached our  
 "border" through which it was almost im-  
 possible to pass, and so we did very  
 little hunting. We thought we had  
 established a very firm friendship with  
 the natives, and they continued to visit  
 our drives, and to bring me and  
 the boys began to complain of mis-  
 sions out of their rooms and bunks,  
 when we began to investigate. By  
 the way, sir, we found that those trifling  
 Indians had stolen nearly everything of  
 value aboard ship. The next day,  
 when the natives would not come  
 forward, and I explained the reason  
 in the best way I could, and they  
 us, about the maddest Indians I

the morning a few months after the war, there was a great commotion in the workmen. A complete re-  
building of numerous perturbations and ob-  
blik had been written on the in-  
showing conclusively that the  
mammoth obelisk had jarred, swayed  
settled during the night. Scientific  
perussion one of the men finally  
wanted to go to the top and examine  
the cause. The astonishing report  
came into the midst of the anxious

Duluth, Minn., June 28, 1897.  
The Common Council of the City of  
Duluth.—Your committee appointed  
to investigate and report the manner of  
construction of the pump house at  
second under contract number 400  
to C. J. Fredrickson, and the  
aided contract reported to the com-  
mittee 21, and confirmed and author-  
ized it June 1, beg to report that they  
investigated the same and find the  
following facts:  
That the contract (No. 400) was  
made, under which the pump house  
now being completed by C. J. Fredrick-  
son, by itself, calls for a payment

Duren, Harker, Richardson, Simpson, Sang, Scher, Trevillon, Vice President 13.  
Mrs. None.  
Approved July 2, 1887.  
HENRY TRULSEN,  
Mayor.

RESOLUTION NUMBER II.  
Resolved, that the actions of W. H. Wilson, president of the board of public works, and C. W. Wilson, in connection with the letting of the amended contract for the construction and completion of a pump house at Lakewood, approved by the council, show such culpable neglect and derelict duty, such utter and reckless disregard of the directions of the council

C. E. RICHARDSON,  
Clerk of the Common Council.

**ORDINANCE AMENDING AN OR-  
DINANCE TO LICENSE AND REGU-  
LATE PAWN-BROKERS IN THE  
CITY OF DULUTH.**—  
Common Council of the City of Du-  
luth: Ordinance.

1. That the ordinance to license and regulate pawnbrokers in the city of Duluth, passed and approved February 18, 1895, and published February 25th, 1895, and the same hereby is amended by striking out the words "two hundred and fifty dollars" where the same appear in the fourth section of said ordinance and inserting in place thereof

## CITY BRIEFS.

Callum, dentist, Palladio. Phone No. 9. Smoke-entire clear. W. A. Foote. No reports of injuries from fireworks yesterday have been received at police headquarters.

About 300 men were engaged on the work of repairing the ravages of Friday night's storm this morning. It was found necessary to stop most of the work shortly after 3 o'clock, however, on account of the rain.

The building inspector's report for permits for the construction and repair of buildings, amounting to \$18,376, the following births have been reported to the health department: A son to R. L. and Martha Steele, of 5 West Fifth street; a daughter to E. A. and Edna Thompson, of 200 London road.

Helle Jackson, whose real name is Mrs. Sam W. Lee, being the spouse of a Celestial by that name, and Barbara Langill, of Langdon, were before Judge Edson this morning on the charge of drunkenness. They pleaded not guilty, and their hearing was set for this afternoon.

Charles Johnson and Edward Dahl were fined \$10 and costs each by Judge Edson this morning for drunkenness. They went up the hill, Andrew Matson and L. Edholm, two-car loaders, were let off with sentences suspended.

The death of Mrs. Frank Hodge, aged 40, of 30 Washington avenue, is consumption, has been reported to the health department.

The case of J. E. Picher against G. A. Elder et al., in which the plaintiff asks for the balance alleged to be due under an agreement to render services in the last water, land election, was this morning continued by consent to the next term of the municipal court.

The receipts of the Duluth postoffice during June were \$22,234 and the disbursements \$19,220, yielding \$2,222.21 to the treasury. This is a slight falling off from June last, when the net gain was \$2,345.41.

Steel & Johnson's saw and planing mills are still idle, as the result of the damage done, and it is expected that everything will be in running order in a short time.

The foreign will of Mattie R. Lee, of New York, was filed for probate this morning.

A marriage license has been issued to John T. Warner and Maggie M. Ebrahimi.

Charles Downer, as trustee, this morning began a suit against W. H. Edson to recover the balance due him on a promissory note dated Feb. 1, 1896, secured by a mortgage on lots 10 and 11, in the division of Duluth, Alaska, and that are the attorneys.

The funeral of Mary L. Johnson who died Sunday night will be held from the residence here, E. E. Edson, 200 West Fifth street tomorrow afternoon at 2 p. m.

Thursday morning at 9:30 o'clock all of the criminal cases of the present term of court that have not been tried or continued will be taken up.

Professor Ours has postponed his party at Lester Park to Thursday evening.

## ARE VERY REPENTANT.

Two Boys Frightened at the Prospect Before Them.

Henry Krause and Charles Jacobson, the two boys who pleaded guilty to the charge of stealing a number of pigeons belonging to Nicholas Witt, appeared before Judge Edson for sentence this morning. Krause was given a jail sentence of fifteen days, Jacobson is under the age at which he may be sent to jail, and it was directed that the evidence taken this afternoon for the submission of his case to a judge of the district court.

When Judge Edson had rendered his decision and the boys were taken from the custody of their fathers and committed to the forthcoming-looking cage where they were to be confined pending their removal, the full realization of their situation came over the boys. Jacobson broke down completely. The Jacobson boy leaned his head in his arms at a grated window and wept bitterly. The Krause boy sat on a bench with his face buried in his hands, the picture of despair. Jacobson may be sent to the reformatory at Red Wing.

\$2.00 St. Paul, Minneapolis and return, via St. Paul & Duluth railroad, July 6-7, via St. Paul & Duluth railroad. Trains leave Duluth 9 a. m., limited, 1:35 p. m., and 11:15 p. m. ## PERSONALS.

Mrs. Fred Engels has gone to St. Paul and will visit there and in Southern Minnesota for two weeks.

Miss Helen Cowden, who has been visiting here, will leave for her home in Marquette, Mich., tonight.

C. M. Mauser and party of ladies and gentlemen have returned from a three days' stay at Deerwood. They had about 200 nice fish, mostly bass, to their credit.

Lieut. Col. M. M. Gasser, of Governor Croly's staff, left Washington yesterday and is due here tomorrow.

Dr. R. Graham, P. Doran, W. P. Williamson and John A. Ferguson are among the Duluth Elks who went to Minneapolis today.

Judge Probate Ayer returned Sunday from a short Southern trip.

Deputy Sheriff Andrew Hunter left this afternoon for examination of six weeks, which he will spend in Toronto, Buffalo, Niagara and elsewhere.

Mr. and Mrs. John Berry, of Washington, D. C., are visiting their daughter, Edna Berry, and Mrs. S. S. Williamson. Mr. Berry is in the quartermaster general's office.

Charles J. E. Bergstrom, of St. Paul, is a late arrival at the Spaulding. John Little, L. G. Staples, E. J. McCarty and W. C. Elliot, all of Chicago, are registered at the Spaulding.

J. E. Barry came up from St. Paul this morning and registered at the St. Louis.

G. A. Jeffery, of Helena, Mont., is a guest at the St. Louis.

M. H. Barber, of Ann Arbor, Mich., is among today's arrivals at the Spaulding.

H. E. St. Claire, of Baker City, Ore., is among today's arrivals at the Spaulding.

S. R. Flynn came up from Minneapolis today and registered at the Spaulding.

J. T. Dean, of St. Paul, is a guest at the Spaulding.

W. J. Shaw, of Toronto, is in the city a guest at the St. Louis.

John T. Johnson is down from Virginia today, a guest at the St. Louis.

Capt. E. Moreau, of Tower, is at the St. Louis.

Y. K. Baumbach came in from Grand Rapids today and registered at the St. Louis.

A. N. Agle and A. D. Holliday, of Two Harbors, spent the Fourth in Duluth, guests at the St. Louis.

H. L. Mosser, of New York, is at the Spaulding.

J. S. Archer and Misses F. J. and A. C. Archer, of St. Paul, are guests at the Spaulding.

P. G. Hobbes returned today from a trip to Omaha and southwestern points, where he spent considerable time in examining it.

The deaths during June number 28, the annual rate per 1000 for the month being 7.5, according to the health department report, which has just been completed by Secretary Harbort. There were 37 deaths in May and 20 in June, 1896. There were 91 births during the month, against 80 in the corresponding month last year.

Pneumonia leads the list in the number of deaths, there having been 10 caused by it. The other causes of death are as follows: Accident and violence, 4; consumption, 4; valvular heart disease, 3; infantile convulsions, 2; enteritis, 2; inanition, 2; meningitis, 2; and 1 each from appendicitis, angina pectoris, cancer of liver, cholera infantum, diabetes, diphtheria, gastro-enteritis, hemorrhage of intestines, nephritis, pyæmia, scarlet fever, syphilis, tetanus, typhoid, typhus, and unknown.

The record of the birth place, sex and age of those dying is as follows: Boys, 12; girls, 12; under 10 years of age, 12; 10 to 20, 10; 20 to 30, 10; 30 to 40, 10; 40 to 50, 10; 50 to 60, 10; 60 to 70, 10; 70 to 80, 10; 80 to 90, 10; 90 to 100, 10.

Of the births 42 were males, 49 females, 1 pair of twins and 1 still-born.

Kentuckians Visit Duluth.

Eric Woodson, editor of the Owensboro, Ky., Messenger, and S. J. Shackelford, also of Kentucky, are in the city and will visit a day or two. They are old friends of Beriah Magoffin and have been with him today. Mr. Shackelford is clerk of the court of appeals of Kentucky and is the only Democrat who was elected in that state last fall. Mr. Woodson was at one time railroad commissioner in Kentucky.

Is in Better Shape.

Neil McInnis, of Tower, arrived in the city last night. He reports that work on the Crane Lake road is progressing finely and that good results are being accomplished. The road is being thoroughly built and when it is seen that the appropriation will not be sufficient to complete it, work remains will be used in patching up the worst places. Mr. McInnis said that he recently traveled over the route, making the entire distance, about twenty-eight miles, in six and a half hours, a half hour being consumed in eating dinner.

Going to Minneapolis.

A party of over twenty Elks, some of them accompanied by ladies, arrived in the city on the North West last evening and left on the night train for Minneapolis to attend the grand lodge meeting. During their brief stay in the city they were entertained by members of Duluth lodge. Some were driven over the boulevard and others taken to Lakeside and other points of interest. Among them were members of the Elks lodges at Brooklyn, Cincinnati, Cleveland, Pittsburgh, Columbus and Indianapolis.

## PERSONAL PROPERTY

Assessed Valuation of the City as Returned By Assessor Hawkes.

SHOWS A DECREASE

Heaviest Falling Off Is In the Fifth Ward--Some Figures.

The total assessed valuation of personal property as returned by the assessor this year, will be about \$500,000 less than was returned in 1896--\$750,000 less, to be exact. The footings which had not been verified, but are approximately correct, give the total valuation returned by the assessor as \$4,715,157.

The increase made by the board of review is the heaviest in the Fifth ward, amounting to \$73,755.

The major part of this is on the stocks of the coal companies. The Fifth ward, at the same time shows the largest falling off in valuation, the decrease being \$24,374, the shrinkage being merchandise and bank stocks.

The valuation for the Fifth ward, this year is \$1,141,321.

In the Eighth ward, the decrease is \$55,061. This year's valuation being \$129,965. The valuation of the Duluth-Superior bridge is placed at \$250,000 and one-half is credited to Duluth, Duluth's share is included in the return for the Sixth ward.

The valuation will next be passed on by the county and state board of equalization.

The valuation by wards is as follows: First ward \$206,616; Second ward \$127,758; Third ward \$134,715; Fourth ward \$169,221; Fifth ward \$1,141,321; Sixth ward \$65,472; Seventh ward \$25,182; Eighth ward \$139,263.

Total \$4,715,157.

PUSHING THE WORK.

St. Paul & Duluth is Employing Many Men at Repairing.

The St. Paul & Duluth continues to run its trains over the Eastern Minnesota road, not yet having got the track in shape between West Duluth and Carlton. The representatives of the company now expect to be able to send a train out of Duluth for St. Paul by tomorrow night. A large force of men is at work repairing the damage done by the north wind, against the corresponding month last year.

Pneumonia leads the list in the number of deaths, there having been 10 caused by it. The other causes of death are as follows: Accident and violence, 4; consumption, 4; valvular heart disease, 3; infantile convulsions, 2; enteritis, 2; inanition, 2; meningitis, 2; and 1 each from appendicitis, angina pectoris, cancer of liver, cholera infantum, diabetes, diphtheria, gastro-enteritis, hemorrhage of intestines, nephritis, pyæmia, scarlet fever, syphilis, tetanus, typhoid, typhus, and unknown.

The record of the birth place, sex and age of those dying is as follows: Boys, 12; girls, 12; under 10 years of age, 12; 10 to 20, 10; 20 to 30, 10; 30 to 40, 10; 40 to 50, 10; 50 to 60, 10; 60 to 70, 10; 70 to 80, 10; 80 to 90, 10; 90 to 100, 10.

Of the births 42 were males, 49 females, 1 pair of twins and 1 still-born.

## Crescent

Enthusiastic Riders.

Will Probably Not Be Open to the Public Before July 15.

NOT YET ACCEPTED

No Celebration Unless Duluth and Superior Mayors Want It.

There is little likelihood of the Duluth-Superior bridge being opened to the public before July 15. While the structure is, to all intents and purposes, now completed, it has not yet been formally accepted by the bridge company, and until that is done it will remain in charge of the steel company that constructed it. W. H. Hodge, the bridge company's assistant engineer, arrived in Duluth today from New York, to begin the work of inspecting the bridge and it is not likely that he will complete his task within a week. A. P. Roller, the chief engineer, is expected here next Tuesday. While it is not known that there is any of the work on the bridge that is not fully up to the requirements of the plans and specifications, it would be very unusual if it is not found that some changes are necessary. One thing is certain, the bridge will not do any business until it has been accepted by the company in regular form.

The arrangements for any celebration of the opening will be made by the mayors of Duluth and West Superior, the officers of the bridge company leaving the matter entirely in their hands.

WANT SOMEONE'S APPROVAL.

County Board Unwilling to Decide on Mr. Baldwin's Bill.

The board of county commissioners will begin its July meeting tomorrow afternoon. The plans prepared by Wangenstein & Bray for the proposed new poorhouse will probably come up, together with the architects' bill for the preparation. C. O. Baldwin's bill for services as acting county attorney, amounting to over \$900, will come up for consideration.

The commissioners, apparently, have not yet decided what they will do with it, but unless they received some sort of a written approval from the attorney general or the judges of the district court, they would not allow the bill. What they want is some legal authority on which to shoulder the responsibility of accepting this member of the board, they do not want to see Mr. Baldwin do his work for nothing, but they do not care to assume the responsibility of paying him unless they are sure his bill is legal.

MARQUETTE BREAKWATER.

Work on It is Progressing Very Favorably.

Mr. Sears will leave today for Grand Rapids, Mich., and points in that vicinity on government business and will be away until next week. The work of setting the breakwater, which Mr. Sears has been under way at the engineer's office for some time, is now being attended to by Mr. H. C. Marquette, who is in charge of this to the new concrete breakwater at Marquette. Mr. Sears takes great interest in this and it is particularly a matter of his own, he having designed and carried it out. At the present time large foot blocks of concrete and caissons are being placed in position and work admirably. These go just on top of the crib work, a little below the water. Considerable trouble was experienced at first in arranging for this footing concrete and cement was used, being placed in with mounds, but it was difficult to do this. The plan of making big blocks of concrete and cement was decided upon and all winter long the work of making these was under way. The blocks weigh four and one-half tons each.

The breakwater, when completed, will be 300 feet in length. At present the structure is about 100 feet long and 10 feet high. Plans for the outer end are being placed in position and work admirably. These go just on top of the crib work, a little below the water. Considerable trouble was experienced at first in arranging for this footing concrete and cement was used, being placed in with mounds, but it was difficult to do this. The plan of making big blocks of concrete and cement was decided upon and all winter long the work of making these was under way. The blocks weigh four and one-half tons each.

Mr. Barker Shows Up.

J. B. Barker, the Floodwood druggist, who has been out trying to raise \$50 to pay his fine for public intoxication, has been arrested by the police and is now in jail.

SOMETHING TO DEPEND ON.

Mr. Jones, of the drug firm of Jones & Son, Cowden, Ill., speaking of Dr. King's New Discovery, says that last winter his wife was attacked with grippe, and her case grew so serious that physicians and medicine failed without a license, and stayed longer than the time given him in which to return, presented himself before Judge Edson today. He said he had been out trying to raise the money and failed, and that he had been unvoluntarily delayed in returning. He was turned over to the sheriff to serve his sentence in jail.

# STRONG DOCUMENT

Such Was President McKinley's Message to Salisbury, the British Premier..

## DR. JORDAN'S TRIP

He Is at Seattle on His Pelagic Trip to Alaska.

Seattle, Wash., July 7.—Dr. Jordan, professor of Leland Stanford Jr. university, has arrived here en route to Alaska, whither he goes as a member of a government commission created for the purpose of studying the conditions and methods for the better protection of the fur seals. He is accompanied by Professor Wood and five Stanford students, the latter as assistants.

Dr. Jordan confirmed the truth of the Chicago and Washington dispatches relative to President McKinley's message to Lord Salisbury, the British premier, informing that statesman that Great Britain was not living up to the letter of the law as to the American seal.

He also authorized the statement that a text of the message was submitted to him as a member of the seal commission by Secretary Sherman for suggestions and approval before it was communicated to the government of Great Britain.

"It was a very emphatic and strongly worded document, but beyond that I must decline to tell what it contains," Dr. Jordan replied in answer to a request for the substance of the message.

## HIS LAST DIVE.

Professional High Diver at Chicago Fatally Injured.

Chicago, July 7.—Capt. Fred Royal, the professional high diver, was probably fatally injured last evening at Ferris Wheel Park. Capt. Royal dove from one of the cars on the wheel after it had reached a height of 125 feet. He miscalculated the distance and in turning into the net while in breaking the fall struck on his ribs.

Capt. Royal bounded some distance into the air after striking the net and fell against one of the guy ropes. He clung to the rope, but was unable to use his lower limbs. Physicians state that he has received a severe contusion of the spine and it is feared he may not recover. Capt. Royal is 22 years old and has made many dives from lofty heights, but this is his last serious accident.

## NEW MONUMENT BILL.

Secretary Gage's Measure Not Yet Completed.

New Haven, Conn., July 7.—Secretary of the Treasury Gage has been in correspondence with Professor Arthur T. Hadley of Yale on subjects relating to financial matters of the government. Professor Hadley is a leading authority on finance and was a conspicuous member of the Indianapolis monetary convention. The correspondence relates to the features of the bill which will be introduced into congress, embodying the ideas of Secretary Gage.

Professor Hadley was asked about it today and said: "The bill is not prepared yet. It is not completed and it is not yet possible to make public its salient features. Hard attention is being given to it and the indications are that in a few weeks it will be put before congress and made public. The bill is in accord with the monetary views of the leading financiers of the country."

## THE LOGAN MONUMENT.

President McKinley Will Attend Its Dedication in Chicago.

Washington, July 7.—President McKinley will visit Chicago for the purpose of participating in the Logan monument dedication July 22. This decision was arrived at when the president heard the good news from the senate that the tariff bill is to be voted on this afternoon. The president has all along intended to go to Chicago if congress finished its work in time, but he has hesitated to make an engagement as long as there was any doubt as to the date of the adjournment of congress.

There seems to be no doubt that congress will adjourn between July 15 and 18, and if it concludes its session about that time the president will go to Chicago to pay honor to the dead soldier. Several members of the cabinet will accompany the president, but just how many remains to be ascertained. The question will be brought up at a special meeting today when the president will invite all the secretaries who can spare the time to accompany him to Chicago.

## COPYRIGHT LAW UPHOLD.

High Court of Ontario Says It Is O. K.

Toronto, Ont., July 7.—The international copyright law has been upheld here by the high court of Ontario in an important case, and in the future the interests of United States music publishers in Canada will be protected. Judgment was given by Justice Robertson in the action brought by the Church company, of Cincinnati, against J. Gould, of the Imperial music company, of Toronto. The action was brought for the infringement of a copyright on two of Sousa's marches.

The judgment restrains the Toronto firm perpetually from publishing these two pieces of music, and orders that all copies of the pieces now in hand be given up, as well as the lithographs and matter used by the defendants in printing the music. Defendants also have to pay the costs of the suit.

## COL. ANDREWS DEAD.

Pittsburg, July 7.—Col. James Andrews, one of the most prominent mechanical engineers of the country, is dead of Bright's disease. Col. Andrews was associated with Capt. James B. Eads in the construction of the Mississippi bridge and St. Louis bridge. He was 60 years of age.

# 'TIS LOVE THAT MAKES THE WORLD GO ROUND.

Some people think money is a greater power than love. Oh! What a mistake! See how the great money kings are controlled by the little boy Cupid! See how the great soldiers and men of power are twisted around his life-fingers.

A woman's most precious possession is the capacity for awakening pure and noble love. More potent than wit or intellect is the womanly capacity for happy wifehood and motherhood.

A woman who is weak or diseased in the special organ of her sex is deprived of the power and prestige which naturally belong to her. Such troubles are not a necessity. Perfect health and strength of the feminine organism is easily secured by proper care and the aids afforded by enlightened medical science. Dr. Pierce's Favorite Prescription cures all weaknesses and diseases of woman's special organism.

For nearly 30 years Dr. Pierce has been chief consulting physician to the Invalids Hotel and Surgical Institute, of Buffalo, N. Y. No other physician has had a more extensive practice or greater access in the treatment of women's diseases. No other has so perfect and scientific remedy for the ailments which have been devised. It has restored health, strength and womanly power to tens of thousands of women.

Women who would understand their own powers and possibilities should read Dr. Pierce's thousand-page book, "The People's Common Sense Medical Adviser." It is the most interesting and enlightening book of the kind ever published. A paper-bound copy will be sent absolutely free to any sending a cent stamp to pay the cost of mailing only. Address, World's Dispensary Medical Association, Buffalo, N. Y. For a handsome cloth-bound copy send 31 stamps.

Washington, July 7.—Senator Pettigrew today presented in the senate a statement prepared by himself giving Japan's reasons for adopting the gold standard, together with translations of the new currency law of that country, the speech of Minister of Finance Matsukata in presenting this measure and the views of the Japanese currency commission.

Mr. Pettigrew says that from a careful reading of the speech of the Count Matsukata in presenting the measure he is convinced that the gold standard has been adopted entirely in the interests of the credit of Japan, and for the purpose of preventing a further decline in the purchasing power of the Japanese yen.

Senator Pettigrew also introduced a resolution which would authorize the United States to purchase gold from Japan at the rate of \$20 per ounce, and the creditor classes which will benefit from the measure.

Senator Pettigrew says that since the Chinese war, prices have risen about 20 per cent and the creditor classes have been injured because of the general adoption of the gold standard. The power and influence of the creditor classes in Japan have been greatly enhanced by the rise in prices, and the power of the war, the situation thus presenting many features similar to that which induced the gold standard in 1873 to adopt the gold standard.

In every instance, the rise in prices, the producers of wealth are not benefited. It is true the minister of finance in Japan has said that the rise in prices has cut off exports from Japan and therefore the manufacturing classes were injured, but he makes no argument which appeals to the farming classes, notwithstanding that farming is the backbone of the Japanese economy.

Senator Pettigrew concludes that the result of this recent step on the part of Japan must be the same there as elsewhere, saying "It cannot help but result in the further appreciation of gold and a corresponding advance in the value of silver as well as a decline in the gold price of all products which will check the rise in prices, industrial prosperity and transfer her industries to China if China remains upon a silver basis. Already, the competition of gold has risen in value sufficiently to make it profitable in exporting it. Japan's export of silver has been advanced in manufacturing value of goods in China over the manufacture of like goods in Japan."

## FORCING THE TURKS.

Russia Insists on Expediting Peace Negotiations.

Constantinople, July 7.—Russia has sent a circular note to the powers suggesting that steps be taken to expedite the conclusion of peace between Greece and Turkey. This action upon the part of Russia is regarded here as being of the greatest importance, as indicating that Russia desires to forestall a similar proposal upon the part of the other powers.

Both the palace and the Turkish ministers were immediately informed of the Russian action. The German ambassador here, Baron von Joffe, has received fresh and precise instructions to insist upon Turkey's acceptance of the strategic frontier proposed by the powers.

## TO PAY GREECE'S INDEMNITY.

ATHENS, July 7.—The Asy says the creditors of Greece are disposed to advance the \$10,000,000 required for the Turkish indemnity, repayment of the loan to be guaranteed by the receipts from the existing monopoly on tobacco and from the stamp revenues, the administration being placed under the control of a financial body in which the creditors will have three representatives.

## TRANS-MISSISSIPPI CONGRESS.

St. Louis, Mo., July 7.—The trans-Mississippi congress which meets here a week from today, a public reception will be tendered Mrs. W. J. Bryan by the Women's club of this city. Mrs. Bryan will join her husband here on July 14.

## PHOTOGRAPHS OF DURANT.

San Francisco, July 7.—In order to carry on the fight for life, the parents of Theodore Durant will place his photographs on sale. The photographs will be sold at a price of \$1.00 each, and the proceeds will be used to defray the expenses of Durant's defense.

## HE IS SHORT \$20,000.

Astoria, Ore., July 7.—B. L. Ward, county treasurer of Clatsop county, is short in his accounts about \$20,000. The county will sue him for the amount. His friends say he used the money in his mercantile business.

## TOBACCO AND RETURN.

LOW FARE EXCURSIONS, VIA P. & S. & A. RAILWAY.  
All-rail via Salt Lake, Mar. 10, 20, 30, 40, 50, 60, 70, 80, 90, 100, 110, 120, 130, 140, 150, 160, 170, 180, 190, 200, 210, 220, 230, 240, 250, 260, 270, 280, 290, 300, 310, 320, 330, 340, 350, 360, 370, 380, 390, 400, 410, 420, 430, 440, 450, 460, 470, 480, 490, 500, 510, 520, 530, 540, 550, 560, 570, 580, 590, 600, 610, 620, 630, 640, 650, 660, 670, 680, 690, 700, 710, 720, 730, 740, 750, 760, 770, 780, 790, 800, 810, 820, 830, 840, 850, 860, 870, 880, 890, 900, 910, 920, 930, 940, 950, 960, 970, 980, 990, 1000.

## NEW YORK TOWN SCORCHED.

Canton, N. Y., July 7.—The town of Jackson was almost wiped out by fire last night, and twenty buildings were burned.

## Get tickets for the Elks' excursion to St. Louis.

Get tickets for the Elks' excursion to St. Louis. The excursion will leave Duluth on July 14, and return on July 21. Tickets are \$1.00 each, and the proceeds will be used to defray the expenses of the excursion.

# THORN IS IDENTIFIED.

And He Confesses the Murder of Goldensuppe.

New York, July 7.—Positive identification of the man arrested last night as Martin Thorn, the alleged confederate in the murder and dismemberment of William Goldensuppe, was made today. Mrs. Harten, of Woodside, L. I., called at the police station, and after seeing Thorn said she had seen him about the house in Woodside where Goldensuppe is supposed to have been butchered.

Acting Inspector O'Brien said today that he had in his possession a full confession from Thorn, admitting that he had murdered Goldensuppe, and giving all the details of the crime.

Acting Inspector O'Brien thinks he knows who Thorn dropped the head of Goldensuppe into the river, and says he is going to arrange for the dragging of the body from the point at which it was thrown. He also says that Thorn, in his confession to a friend, said that he had been disappointed in the hope that his confession as the drain from the bath tub, instead of running into a sewer, ran into a ditch outside the house.

## IN THE DAKOTAS.

NORTH DAKOTA.  
The weather and all other conditions for the production of a large crop for the last ten days have been better at Minn., although in some localities there has been too much rain and out, and flax and millet are looking better. Corn is also looking better, but wheat, the main crop, is looking well generally.

Several of the low places in the north, and other crops are looking well generally. The water in the several polling ponds of the north, as high as it was in the early spring, and the crops are looking well generally. The water in the several polling ponds of the north, as high as it was in the early spring, and the crops are looking well generally.

#### ROASTED THOMAS

Duluth Heights People Jump on Mr. Hannibal With Both Feet.

#### MADE AN APOLOGY

Is Declared to Be No Longer the Spokesman of the Heights.

The meeting called at Duluth Heights last evening to perfect the organization of the volunteer fire department proved one of the hottest events of the season. Thomas Hannibal was repudiated, a set of jeering resolutions being passed disavowing him as a representative of the Heights in general.

The resolution recommended among other things that Mr. Hannibal be censured for his speech before the fire commissioners Saturday evening relative to the Heights fire department. Some of the few friends Mr. Hannibal seemed to have in the crowd appealed for mercy on his account, giving the amendment was finally passed, giving Mr. Hannibal the opportunity of apologizing. Mr. Hannibal made a statement which these present considered as answering the purpose of an apology and the vote of censure was withheld.

There were fifty-five persons present at the meeting, and among them were just eight, according to a statement of one of Mr. Hannibal's friends, who did not embrace the opportunity of jumping on that gentleman with both feet as opportunity offered during the evening. The resolutions were drafted by a number of citizens of the Heights who had constituted themselves a committee for that purpose.

When the meeting convened the attention was handed to the secretary by Leroy Conner, with the request that they be read. There was a long preamble in which it was set forth in effect that when a member of a community proved himself disloyal to his community and to those associated with him in the work of the community, the condition of that community it was time to charge that, at the conference with the fire commissioners, held Saturday, at which Mr. Hannibal was present as a representative of Duluth Heights, he made wilful misrepresentations to the effect that the Heights fire department was not rightly organized, that it had too many officers and that he himself was the rightly constituted chief.

Mr. Hannibal, when the resolutions were read, took the floor, and nothing daunted by the overwhelming odds against him, made a fiery speech in which he recited his services in behalf of the Heights, and insisted that the Heights would have had no fire department had it not been for him.

W. E. McEwen replied in a speech

that fairly sized, and after he had concluded forty-six other members arose in succession and in plain words told Mr. Hannibal what they thought of him. Some of them went so far as to assert that they had been in favor of a resolution expelling Mr. Hannibal from the department.

Ex-Alderman Harwood and a few others rallied around Mr. Hannibal and they finally secured the passage of the amendment giving Mr. Hannibal a chance to apologize. It was not until Mr. Hannibal had called on Mr. Hannibal the second time, stating as he did so that it would be Mr. Hannibal's last chance before the resolution of censure should be put that the latter came to the scratch and said that if he had said anything that did not meet the views of the members of the fire department he was very sorry for it. This statement was accepted as amended. Mr. Hannibal was also dropped from the executive committee of the fire department.

The constitution and bylaws reported from the committee appointed to draft them were adopted by an unanimous vote and a resolution was unanimously passed endorsing the election of officers made at the previous meeting as follows: W. E. McEwen, president; J. A. Sullivan, secretary; S. Mahon, chief; W. Collins, assistant chief; B. Wood, foreman; J. Baerner, watchman.

The constitution and bylaws were filed at the city hall today and will be considered at a special meeting of the fire commissioners to be held Saturday.

**SULLIVAN AND RUBINSTEIN.** Pittsburgh Dispatch. Sir A. Sullivan went to see Rubinstein at his hotel in London. The Russian composer asked how he was and the answer was "smoke a cigarette."

They sat down, twisted their cigars, and puffed the blue clouds into the air. After a long pause Sir A. Sullivan observed:

"You are a great admirer of Beethoven, I presume?"

"Yes," said Rubinstein.

"And Wagner?"

"No," was the reply.

Not another word was spoken. They rocked themselves in their chairs and smoked away. After a very long time Sullivan said:

"I think it is time for me to go."

"Don't say so," said Rubinstein. "Stay a bit longer. It is so nice to talk to you."

Sullivan stayed, and went on rocking himself into the small hours of the morning, when he got up and said:

"I must be off now; I think we have chatted long enough."

Rubinstein drew out his watch.

"Half-past two," he said. "Strange how time flies in pleasant company!"

**Attention Elks!** The executive committee of Duluth lodge, No. 132, B. P. O. E., wish it thoroughly understood that the "Omaha" and Eastern Minnesota railways are official lines for their excursions to Minneapolis, and request all Elks and their friends to purchase regular Elks tickets at M. S. Burrows' store. Invite your friends and see that they go with us. Friends accompanying us will be supplied with Elks' Duluth badges.

Tickets \$2 for the round trip. Take advantage of this rate. Some tickets early, that ample accommodations may be provided. **JOHN L. FULLER,** Secretary.

Rooms are quickly rented when advertised in The Evening Herald. It costs but 1 cent a word.

#### MINERS CONFIDENT

But the Operators Say That Many Mines Are Working Full Crews.

#### MANY MINES CLOSED

Will Take Several Days to Get Accurate Reports at the Headquarters.

Pittsburg, July 7.—Reports received from the river mines in the Pittsburgh district indicate that there is almost a total suspension of work in the pits today and that the strike, so far as the river mines are concerned, is general.

A dispatch from Monongahela City says: "The bitter feeling between the river and railroad miners that has always existed, and which a strike was inaugurated heretofore and prevented good results, has been laid aside. Organized, unorganized and imported miners have joined with one faith and for one purpose."

Today there are about fifty men at work and 7000 idle in the Monongahela valley. The few men in or at work in the Chamoni mine, operated by the Tide Coal company, are working out a contract which expires this month. Yesterday a few miners were working at the Lilly, Appolo, Acme, Foster and Clark mines, but nothing is being done at these mines today. Such a complete suspension of mining has not been witnessed in the Monongahela valley before for many years.

Representatives of several Pennsylvania and West Virginia coal concerns are in the city. Several operators whose offices they had visited, said there would be no trouble in filing urgent orders held by the Pittsburgh operators, even should the suspension here become thoroughly general. It was said that representatives of the Pennsylvania and West Virginia companies were here trying to relieve local operators of Pittsburgh contracts. The West Virginia representatives claimed their state would be able to supply the whole market during the strike, but could not attempt to ship to the lakes.

According to the miners' officials, the suspension in the railroad mines is almost as complete as it is along the rivers. All the large mines, except the New York and Cleveland Gas Coal company, they claim are idle today. Among the works forced to close down by the refusal of the diggers to work, they say, are the Pan Handle mines of M. A. Hanna & Co., Heading brothers, Robbins company and the Pittsburgh and Chicago Gas Coal company. According to President Dolan's figures not more than 300 men are at work in the district today. Most of these are employed in the mines of the New York and Cleveland Gas Coal company and he will have them out before the end of the week. He claims a large number of men quit work there yesterday and today. This morning he sent word to the various members of the executive committee and extraordinary efforts will

be made to induce the men still working to come out. "I think," said he, "that before the week is over you will find that there is very little Pittsburgh coal going out."

These views are not entertained by the operators, who still assert that more men are working than have laid down their picks. It is positively asserted that notwithstanding Dolan's statements that all the men are out at the mines, twenty-eight cars, or 25,000 tons, were loaded at the mines yesterday and complied by the operators, which they said were being operated, is as follows: Along Pittsburgh, Virginia & Charleston; Allen, Courtney, Stockdale, Vigilant, California, Catsburg, Williams and Haupt.

Along Pan Handle railway: Harrison, Beading, Jamies, Boreland, Pan Handle, Allison and Cook.

Along Baltimore & Ohio: Eureka, Hampton, Elkins, Woods Run, Along Pittsburgh, McKeesport & Younglophen railway: Banning, Whitsett, Dorr, West Newton, Wyckhaven, Washington, Port Royal and Euclid.

Along Allegheny Valley railway: New York and Cleveland Gas Coal company.

At Turtle Creek the Oak Hill mines, the Plum creek and Sandy creek mines were also running.

#### RATCHFORD CONFIDENT.

No Doubt that the Miners Will Win. Columbus, Ohio, July 7.—President Ratchford today said: "There is no longer any doubt that an ultimate victory for the miners is assured."

Mr. Ratchford said he would not give figures today, but the reports were favorable. The Cincinnati Central labor council has taken up the matter of relief and submitted their proposition to the president of the American Federation of Labor, recommending that the entire membership of that organization be assessed 10 cents per man per week, which will amount to \$60,000. Assurance of support from Mr. Conners of the American Federation of Labor of sympathy heretofore justified us in the belief that he will be glad to carry out their wishes. To carry this movement and insure its success, the presidents of the various national organizations will in a few days meet to deal with this and other subjects.

Mr. Ratchford also points to the fact that railroad employees are taking a deep interest in mining troubles, which interest may lead to their refusal to handle non-union coal during the present struggle. The shipment of coal from the West Virginia field to the lake market has never exceeded 6 per cent of the whole stock any one season. They recognize, however, that it is a difficult matter to displace any coal to which customers become accustomed. The remedy for its evil, if it be an evil, lies in the hands of some of those who complain most bitterly. It is a deplorable spectacle to witness coal from West Virginia, finding its way to the lake front over the coal roads of Ohio, while the mining properties on such roads have been standing in idleness and the managers, both of the mines and the roads, are giving a rate to West Virginia shippers which enables them to enter the market at a less price than themselves.

The evening paper is always carefully read, especially in the home circle, and is therefore an excellent advertising medium. Advertisers in The Evening Herald always get full value.

#### FROM HEATED CORNERS.

Several Deaths Noted at Louisville and Cincinnati.

Louisville, July 7.—Although there has been a drop in the temperature, the heat is still oppressive, and is made doubly so on account of the heated spell. Two deaths from the intense heat were reported today as follows: Adam Graub, 40 years of age, 812 Eleventh street, 221 Burt, 80 years of age, living in Union township, Indiana, just across the river.

Detroit, Mich., July 7.—Hon. George V. N. Lathrop, ex-minister to Russia, who had partially recovered from an attack of heat prostration, began sinking this afternoon. It is feared he may not again rally.

Cincinnati, O., July 7.—There were several sunstrokes today, those of Edmund J. Brenner and Ella Kidwell being fatal. The coroner is kept busy, and has had forty inquests on heat victims within the past three days. There was some relief from the breeze today, but the temperature remained in the nineties.

St. Joseph, Mo., July 7.—Today is the hottest of the season, the thermometer registering 101 degrees in the shade at 2 o'clock. Other thermometers were from 94 to 100 degrees higher. No fatal prostrations had been reported but many lines of trade were almost totally suspended. The wind from the south was very warm and the temperature was high when corn was damaged so badly.

#### HAS BRICKS IN SIGHT.

W. W. Butchart Will Soon Be Loaded With Gold.

W. W. Butchart, who is operating in location A D 2 in the Seine River country, shipped a new stamp mill by way of Winnipeg and Portage Sunday, and he expects to have it running by Aug. 1. He has a crew of men working on two veins and they are down about thirty feet in each vein. By the time the mill is ready to run there will be a stockpile ready for it to start upon.

Mr. Butchart expects to have gold bricks going through Duluth shortly after Aug. 1.

The mill has but two stamps, but it is of a late and improved pattern that makes it equal to seven or eight stamps of the old style.

"When we get to turning out bricks," said Mr. Butchart this morning, "I am going to fix up the gold reserve first. Then any of you fellows that want any gold, all you've got to do is to say so."

Mr. Butchart leaves tomorrow for the mine by way of Tower, to be absent several weeks.

**TOO MANY PEOPLE.** This is the story which the oldest daughter of "Bishop" Olerly, of Illinois, tells, says the Washington Star. She says it happened in Washington. She was going from the Baltimore & Ohio station one day in a cable car, just in front of her sat a party of tourists quite evidently from a rural district. They had just arrived, but already they had fallen in with a guide, who pointed out the sights as they went along.

"That is the Peace monument there," he said.

An old gentleman in the party, of a bawdy aspect, gazed at the monument with an interest not unmixed with incredulity.

"Peace!" said he. "Peace! With all their women?"

#### GRECIAN BOYHOOD

Killing Imaginary Turks a Pleasing Pastime of the Hellenic Youth.

But the Youngsters Excel in All Kinds of Watery Sports.

Though Greece as a whole has been modernized and civilized and nineteenth centuryized along with the rest of the world, that part of it which occupies its rocky southern peninsula, the ancient Peloponnesus, and which is still known by its classical name of Sparta, has changed least of all. The Spartans are a nation of athletes, says the Indianapolis News. At work or at play they are always trying to develop mind and muscle; their games are all trials of strength and skill. There is no other place in the world where a dejected and crippled person is looked upon with so much pity as among the modern Greeks.

The physical training of the young Spartan begins almost as soon as he can walk and talk. At the age of 4 or 5 every boy is examined by a physician to discover whether he is physically sound and able to undergo the hard training, which is part of his education. Unless it is found that the boy has some ailment which would make it dangerous for him, he is taught to sleep on the hardest of hard beds, to rise at 4 in the morning, to go with bare feet and head in cold weather, to run, to leap, to wrestle and to bear pain without flinching. A boy who cried if he got a thrashing would be looked upon as a coward by all his playmates. It is not difficult to believe that such a training builds up strong, sturdy, fearless men.

At 5 the Greek boy begins to attend the government school where he learns to read and write, to know Greek history and to be patriotic. It is interesting to a foreigner to note how persistently the love of country is drilled into the school boys. Twice a day the children sing the Greek national hymn, which tells how their grandfathers threw off the yoke of Turkish oppressor seventy-five years ago. One of the favorite games of the Grecian youth is to play at killing Turks. It is no uncommon sight in the smaller towns and even in Athens to see half a dozen or more youngsters engaged in this interesting amusement. In these miniature battles the Greeks are always victorious, of course, and the boys to whom fall the lot of becoming Turks for the time being have to submit to being killed in a variety of blood-curdling ways, and to being left dead in the street until the conquerors permit them to come to life again. Then the two parties change places, and the former Turks, now become Greeks again, have a chance to show how they would deal with the enemies of their country. The Greek schoolmaster is apt to be a well-built fellow, with the national fondness for all kinds of open air games, who will encourage his boys to excel in all such sports, to try a dash barefooted into the snow on a winter day, and to know the delight of a dip into cold water of a morning.

The influence of this kind of training shows itself very clearly in the games of Greek boys. They nearly all involve strength and skill and most of them

are played in the open air, for the healthy young Greek likes to spend nine-tenths of his waking hours out of doors. Putting the quail—the diskos—has been called the national game of the Greeks and almost any day one can see groups of men and boys busily occupied in trying to outdo one another at it. Frequently after the Sunday church service, half of the congregation will adjourn to the nearest open field and spend the greater part of the afternoon in hurling the diskos.

But of all the Greek boy's good times the best are the hours which he spends on the water, or in the water, for he is genuine amphibian and learns to swim almost before he knows how to walk. The whole of this southern peninsula is so cut up by narrow bays and deep estuaries that no part of it is more than a dozen miles from the sea. Boys of 3 and 6 are taken out by their fathers or older brothers and taught first of all not to fear the water, then to swim and float and dive. Youngsters who look as though they had escaped from careless nurse girls, go plunging along in the face of big waves, as plump and jolly as young cups of champagne (hemodromia in Greek) is in high favor and the Spartans are all accomplished swimmers. But the controlling passion of the Greek youth is to dive from the highest rock he can find, going straight as an arrow from a bow into the water, where he paddles about below the surface until he has made his friends believe that he is dead, when he bobs up suddenly, laughing at their alarm. Swimming under the water is a trick of which the young Spartan is thoroughly a master and races of 200 yards or more beneath the surface are part of his amusement. Still diving seems to have the greatest fascination for him, and the rocky shore outlines of his native land give him plenty of opportunity to indulge his fancy. At the risk of being accused of stretching the facts, I will say that I have repeatedly seen young Spartans for their own amusement dive from the summit of cliffs sixty to seventy-five feet high, and I have been told that leaps of 100 feet are not considered extraordinary. It makes a stranger hold his breath to see these little young fellows go shooting through midair, but the boys themselves revel in the sport, returning again and again for another try.

"It is a grand feeling; it is as if one were flying," explained one curly-headed lad, and in truth it looks very much like flying.

Every Greek boy grows up with the expectation of serving in the army. The regular term of enlistment is three years. The sons of the wealthy may pay exemption from two years of service by hiring substitutes, but every Greek is required to give at least one year of his life to the service of his country. Therefore, every Greek has at least a taste of military life and discipline and a smattering knowledge of military affairs.

March 25 is liberty day in Greece, and it is celebrated in much the same manner as our Independence day, with fireworks and speeches and processions, and a salute of 100 guns from all the batteries. And on liberty day, or any other of the 364 for that matter—it would be impossible to convince any Greek boy that all the Turks in Europe and Asia could ever conquer his boys' loved land. And all American boys will hope that he is right.

**PARK POINT.** Subscribers to The Evening Herald who intend camping on the Point this summer can have the paper delivered to their camp by notifying this office.

The evening paper is always carefully read, especially in the home circle, and is therefore an excellent advertising medium. Advertisers in The Evening Herald always get full value.

Walter Nelson, of Phoenix, S. D., is in the city to attend the marriage of his brother, Oscar Lee Nelson.

Mrs. H. A. Colon and children left today for Princeton and St. Paul where

## COUNTY BOARD

Large Amount of Business Was Brought Before It This Afternoon.

### C. O. BALDWIN'S BILL

Attorney General's Opinion Is Favorable to Its Payment—Other Matters.

The county commissioners met at 2 o'clock this afternoon, and there had accumulated up to noon today a large amount of business for its consideration. The long-expected opinion of the attorney general on C. O. Baldwin's bill for services as acting county attorney has arrived, and while it had not been produced up to noon it was said to be favorable to the payment of the bill. As the attorney general was instrumental in appointing Mr. Baldwin it could hardly be otherwise.

It was believed this morning that the bill would be allowed if there was any thing approaching approval in the attorney general's opinion, which will be sent this morning that if the county commissioners could be assured that it was legal there would not be the least delay in payment.

At St. Nelson, of Iron Junction, put in a complaint against the manner in which the Byrnes road near that village has been built. He claims that the ditch on both sides of the road have been stopped up in front of his place so that the water has run over his land and crops. He wants the board to see about it before his crops are ruined.

At the last meeting of the board, S. W. McDonald, who took up the M. W. McDonald contract on the Miller trunk road, said that he was of opinion to have been delayed by bad weather. The extension was not made and it will come up again at this meeting.

State Auditor Dunn has submitted to the board the bill for the Crane Lake road. The bill is not to be paid by the state until the work is done and the result laid before the state auditor, who will then issue his warrant for the amount.

Overseer Lockwell, of the poor farm, submitted a petition to the board asking for more money. He says that the farm will yield a crop of 100 tons of hay this year and that they have no money to put it unless a check is made. He thinks that a building costing \$500 would be a great help to the farm.

A number of residents of Missabe submitted a petition to the board for a new bridge over the bridge at the intersection of the Sparta and the Sparta mill. There were several other road petitions.

Two applications for liquor licenses from Floodwood were to come before the board. It is said that there are four licenses in Floodwood now, and the commissioners figure that if they grant the licenses they will take \$100 for the county and decrease the number of saloons at Floodwood to two by wiping out the third place.

### HEAVY WINDSTORM.

### South Shore Road Blocked Several Hours by Falling Trees.

There was a heavy wind storm in Northern Wisconsin and Michigan last night, and the result was a heavy rain. The South Shore road, which runs from the shore to the shore, was blocked several hours by falling trees.

A heavy wind storm in Northern Wisconsin and Michigan last night, and the result was a heavy rain. The South Shore road, which runs from the shore to the shore, was blocked several hours by falling trees.

A heavy wind storm in Northern Wisconsin and Michigan last night, and the result was a heavy rain. The South Shore road, which runs from the shore to the shore, was blocked several hours by falling trees.

### AN ODD COMPLICATION.

### Application to Reopen a Judgment Made Today.

In the case of S. B. French against Henry Solon, in which a default judgment was entered a couple of weeks ago, a peculiar development was made in district court this morning, when the defendant applied to have the judgment vacated on the ground that he never received either a summons or a copy of the complaint, and never knew anything about the judgment until he read about it in a Duluth paper.

It seems that the service was made on Solon's wife, who lives at Iron Junction. Accompanying Solon's motion to reopen the judgment is an affidavit in which he states that he and his wife have not lived together since 1892. She maintains an establishment at Iron Junction, while he lives on a farm four miles away. They support their separate establishments, they never visit each other and they have continued this way since 1892. Mrs. Solon makes an affidavit to the same thing.

### Planning the Repairs.

The board of public works has requested the city engineer to prepare plans and specifications for the reconstruction of the following bridges that were damaged by the storm of Wednesday night: The Macfarlane and Peter bridges over Petegaw, at Woodland, the bridge over Lester river, on the Howard road; the bridge on Grand avenue, between Portland and Forty-first avenues west; and the bridge at Smithville.

### Fifth Avenue Hotel.

A. Dräger, the new host of the Fifth Avenue hotel, has just completed refitting and otherwise improving that centrally located hostelry.

Mr. Dräger is an experienced hotel man and is making every provision for the entertainment of guests. It will be conducted as a \$1 a day house.

### BASKERVILLE-NELSON.

### Pretty Home Wedding Celebrated This Afternoon.

At 2 o'clock this afternoon at the home of Mr. and Mrs. J. A. Watterworth, at West Fifth street, the marriage of Miss Nellie G. Baskerville and Oscar Lee Nelson took place. Rev. G. H. Hannas officiating. It was a very pretty wedding. The house was handsomely decorated. In the bay window with a floral arrangement, suspended from the center, under the the bride couple stood when the ceremony was performed. The entire room was decorated with palms, ferns and flowers. The bride wore a white and was attended by three bridesmaids. Only intimate friends were present. Mr. and Mrs. Nelson will make their home here. They will reside at 210 East Third. Mr. Nelson has been in the employ of the American Express company for several years. The bride has been a teacher in the Duluth public schools for several years.

### ELKS GOING TONIGHT.

One Thousand Tickets Sold Here and at Superior.

The Elks will meet in their hall at 8 o'clock tonight and march to the Omaha depot in a body. Many members of the lodge have been leaving for Minneapolis on every train since Sunday night, the largest delegation up to date starting this afternoon, anxious to see the Elks of the city. The Elks of the city will be in the city at 8 o'clock, and will be in the city at 8 o'clock.

The Elks of the city will be in the city at 8 o'clock, and will be in the city at 8 o'clock. The Elks of the city will be in the city at 8 o'clock, and will be in the city at 8 o'clock.

### FOR RENT \$18.00 PER MONTH.

House No. 1429 East Third St., 8 rooms, furnace, bath, range, electric lights; water service included.

Geo. R. Laybourn, 14 Phoenix Block.

### IS NOT SO SERIOUS.

Damage to the Parks Less Than First Thought.

Secretary Hain of the park board said this morning that it is the opinion of the commissioners that Lincoln park can be entirely restored for a sum within \$2000. The work will not all be done this summer, the operations during the summer of this season will be confined to such work as is necessary to prevent future want.

The damage to Lester park, which is almost wholly confined to the bridge, can be repaired for about \$500. Secretary Hain says that the work here will not be begun until winter.

Cascade park can be restored for less than \$100, it is thought. Work at the last named park is under way and can be finished in a day's time if the weather permits.

### VISITED THE BRIDGE.

Officials Ask to Place the Street Railway Track.

The city engineer and the members of the board of public works visited the bridge of the street railway company this afternoon for the purpose of determining the point at which the street railway company's tracks shall cross the Northern Pacific switch at Gray's mill. The visit was made at the request of E. G. Hartley, city engineer.

Hartley stated also that the street railway company is under way and can be finished in a day's time if the weather permits.

### An Unjust Reflection.

To the Editor of The Herald: An article appeared in this morning's News Tribune which contained a reflection of every decent business man and fair minded citizen of Duluth. It is well enough for a newspaper to show who has broken the rules of law, and who has broken the rules of law, and who has broken the rules of law.

 A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant.  
 40 Years the Standard.

## DAVIS IS FINED

Judge Cant Imposes a Fine of Four Hundred Dollars for His Offense.

### HE PAID THE PRICE

One Year in the County Jail Was the Alternative Given Him.

Frederick Davis, ex-county surveyor, appeared before Judge Cant this afternoon and received sentence for the crime of putting in false bills before the board of county commissioners for work performed by him as county surveyor. Judge Cant sentenced him to pay a fine of \$400 or spend one year in the county jail. Davis paid the \$400. The fine was five years or \$1000. Davis decided yesterday to dismiss his appeal and accept sentence, and he and his attorney, O. W. Baldwin, were up to the court house yesterday afternoon to receive sentence, but Judge Cant was away, and he did not return until this morning.

The other seven cases against Mr. Davis were dismissed.

Mrs. Rachel Spethman will appear before Judge Cant this afternoon to receive sentence for the crime of arson in the third degree, of which a jury found her guilty.

### AND STILL IT RAINS.

Little Hope for Better Weather—The Lightning Strikes.

The weather continues to be in an unsettled state and the weather man offers little hope for two or three days. In fact it is clear up by clouds day. Rain and hail may consider them selves lucky. At noon today there was a heavy, though brief shower. A hot wave came with it and for a short time it was almost like a blast from a furnace.

About 12:45 o'clock the residence of Mrs. Julia McLennan, at 608 West Second street, was struck by lightning. The bolt shivered the chimney, jumped the rain pipe and passed down it and into the ground. The thunderbolt that came with it was deafening and every one in the business section of the city knew that lightning had struck not very far away.

The storm belt last evening and this morning seemed to extend from the central portion of the western part of the state through St. Paul up to Duluth and onward through Northern Wisconsin. It is the Upper Mississippi valley that is getting the storms. In Nebraska, Kansas, Missouri, Iowa, etc., the weather is dry and hot.

The storm center is west of Duluth and as long as it continues so the weather is likely to be bad and it does not show any signs of shifting very rapidly.

### A DANGEROUS EXCAVATION.

Another Narrow Escape From a Drowning Accident.

To the Editor of The Herald: About 5:30 o'clock last evening my child, a lad a little over seven years of age, fell into the water near the water mains and out for my timely rescue. Having heard the little fellow's screams, the result might have been fatal. I found him between the side of the excavation and the water main in water up to his neck and perfectly exhausted with fright and fatigue. Fortunately on the side which he fell the small pipes had been laid and he was able to reach those with his feet and keep his head out of the water. Had he fallen on the other side he would have gone over his head and would not have been able to swim for help. He is not able to tell just how it happened.

There is a large dump on the side of the excavation and it came in contact with the iron dump. This trench is a menace to the entire community, as it is not protected in any manner and no lights are placed there to warn people of the danger. I am informed that the lights were removed recently and that a little girl having fallen in a few days since and is possibly quite seriously injured. Respectfully yours,

ARTHUR E. BROWN,  
 531 Grand avenue, Lester Park.

**Struck by Lightning.**  
 The residence of L. W. Wadley, No. 102 East Second street, was struck by lightning shortly after noon today. The bolt passed down through the porch of the roof, knocking off a few square yards of shingles. The damage amounts to about \$10.
